About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

CHIEF PATRON

About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B. Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

.They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “Recent Advances in Transportation Engineering (RATE)”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the various challenges during the fog for the traffic parameters in the Indian Road Traffic Conditions.
- To learn the different challenges for deciding the Capacity and Level of Service concepts for the Indian road Traffic Conditions.
- To identify and learn the different concepts of the traffic performance of the toll plazas with the help of a case study.
- To acquire the knowledge regarding Passenger Car Equivalency for Multilane Roundabouts Under Mixed Traffic Conditions with the help of a Case Study.

4

Outcome of the Program:

- The faculty has learned the various challenges to be faced during the fog for the traffic parameters in the Indian Road Traffic Conditions.
- The faculty has learned the different challenges to be faced for deciding the Capacity and Level of Service concepts for the Indian road Traffic Conditions.
- The faculty has learned the different concepts of the traffic performance of the toll plazas with the help of a case study.
- The faculty has acquired the knowledge regarding Passenger Car Equivalency for Multilane Roundabouts Under Mixed Traffic Conditions with the help of a Case Study.

Office : +91 9705576693 , email: principal_svcet@yahoo.com, website: www.svcet.info

Objectives:

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in VLSI Design/Technology for DSP and AI/ML applications.
- The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and innovators among young faculty members, scientists, students, and researchers.

Outcome of the Program:

The Faculty Development Program (FDP) on VLSI Design for Signal Processing and AI/ML Applications aims to equip participants with advanced knowledge and practical skills in VLSI design tailored for signal processing and AI/ML tasks. Through the program, participants will gain expertise in applying cutting-edge techniques, algorithms, and tools, fostering a culture of research and innovation. The outcomes include enhanced curriculum development, industry collaboration, professional growth, and institutional impact, ultimately addressing industry needs and contributing to the advancement of knowledge and innovation in the field.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that a one week Faculty Development Program on “FUELS FOR ENERGY” has been successfully conducted from 11-07-2022 to 15-07-2021 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

4

Resource persons :

1.Dr.S.LAKSHMANA RAJU

Assoc.Professor

Mechanical Department, SSCE

2.Dr. B.HARISANKHAR RAO

Assoc.Professor

Mechanical Department, SVCET

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **FUELS FOR ENERGY**. All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to improve site characterization enhanced foundation design. Fuels primary purpose is to provide energy, and its calorific value is important. Fuels are essential commodities for every day activities, such as providing most of people's electric power and making transportation possible.

OUTCOMES OF THE PROGRAM

The main outcomes of the FDP is known as about practical outcomes of fuels for energy, Fuels are essential commodities for every day activities.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and increased to 120 in the year of 2022. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives:

The objectives related to machine learning (ML) and deep learning (DL) trends and challenges are multifaceted, encompassing both the advancement of the field and addressing the hurdles that arise with its growth.

Here are some key objectives

- i. Advancing AI Capabilities
- ii. Automation and Efficiency
- iii. Personalization and Recommendation Systems
- iv. Healthcare Innovations

Expected Outcomes: One One Week Faculty Development Program on “Machine Learning and Deep Learning- Trends and Challenges “Overall, navigating these trends and challenges in ML and DL requires collaboration across academia, industry, and government, as well as a commitment to ethical, responsible, and sustainable AI development.

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, CSM, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 15 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

The objective of the program is

1. To ensure overall development of the learner to make oneself reliant and a responsible member of society
2. To create well-rounded individuals.
3. To establish the relationship between for quality education and soft skill endorsement leading to development of learners.

Outcomes of the Program:-

The Faculty Development Program (FDP) on Quality Education Delivery Through Advanced Presentation Soft Skills.

Developing these skills helps children learn to express their ideas clearly and nurture their ideas clearly and nurture their creativity. Presentation skills help pave the way to becoming a confident learner.

ABOUT THE PROGRAM

Objective: The objective of this training program is to provide administrative staff with hands-on experience and technical knowledge in assembling computer hardware and performing routine maintenance tasks. By the end of the program, participants will be able to identify and install various computer components, understand their functions, and carry out basic troubleshooting and maintenance procedures. This training aims to improve the efficiency and self-reliance of administrative teams in managing and maintaining computer systems, reducing the need for external technical support, and minimizing computer downtime within their organization.

Outcomes: By the end of the training program, participants will have gained practical skills and confidence in assembling computer hardware and performing essential maintenance tasks. They will be able to independently identify, install, and troubleshoot various computer components, leading to improved operational efficiency and reduced dependency on external technical support.

Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

CHIEF PATRON

Dr. B. Sri Rama Murthy, Secretary,
Vikas Educational Society.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “Recent Advances in Drone Technology in Civil Engineering”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the various challenges in the Topographic Mapping and Land Survey in Civil Engineering Aspects.
- To learn the different challenges regarding the Remote Monitoring.
- To acquire the knowledge regarding Enhanced land Visualization Concepts.

Outcome of the Program:

- The faculty has learned the various challenges in the Topographical Mapping and Land Survey in the aspects Civil Engineering.
- To learn the different challenges regarding the Remote Monitoring.
- To acquire the knowledge regarding Enhanced land Visualization Concepts.

About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in EEE (Electrical and Electronics of Engineering) with specialization Power Electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various business and electrical related activities. Students are encouraged to do regular case studies enabling them to understand the Electrical related activities.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training program on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. a series of personality development programs are being conducted to encourage students to improve skills.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Machine Learning Application In Signal Processing And Communication Engineering

4th to 8th January 2022

Organized by

Electronics & Communication Department , SVCET Etcherla

About the FDP: Machine Learning often plays a pivotal role in the evolution from data storage to decision-making systems reliant on vast databases, including signals sourced from sensor networks, internet services, or communication systems. This transition necessitates the development of both computational solutions and innovative models. Signal processing stands at the nexus of science and daily life. While the concept may initially appear dauntingly complex, many individuals, including scientists, have been engaging in it unwittingly for years. The essence of experimental science lies in acquiring, shaping, and transforming data, refining it to facilitate enhanced analysis and the extraction of valuable insights. Incorporating concepts of modeling and algorithms elevates these practices into a distinct scientific discipline. The objective of the workshop is to foster synergy between research on Machine Learning methodologies and their practical applications in Signal Processing, encompassing audio, image, and biomedical signal processing domains.

Major Course Contents:

1. Introduction to Machine Learning (ML)
2. Signal Processing Fundamentals and Applications
3. Audio Signal Processing
4. Supervised and Unsupervised Learning Techniques
5. Classifiers: Support Vector Machine, Decision Tree, and Random Forest
6. Dimensionality Reduction Methods: PCA, LDA, etc.
7. Neural Networks, Convolutional Neural Networks (CNN), and Deep Learning
8. Machine Learning for Signal Processing
9. Building Applications with Deep Architectures
10. Pattern Recognition and Image Processing

11. Machine Learning in Computer Vision Applications
12. Convolutional Neural Networks for Audio and Video Processing
13. Modelling and Optimization of Deep Architectures
14. Research Challenges and Case Studies in ML for Signal Processing
15. Case Studies in ML for Speech, Image, and Biomedical Applications
16. Hands-on Session: ML/DL Applications in Speech Processing, Image Processing, and Biomedical Applications using Python and MATLAB

The programme will be conducted by the Resource person from AITAM Tekkali, Academicians in the concerned field are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Registration Fee Particulars:

Participants need to pay the Registration Fee Online using the following details:-

Faculty and Research Scholars	Rs.1000/-
Industry Participants	Rs.2000/-

Online Transfer Details

BANK NAME: BANK OF INDIA
A/C.NO: 868625110000003
IFSC CODE: BKID0005665

How to apply:

Participants are required to fill the registration form and scanned it and send to the convenor through email.

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 30 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail.

Important Dates:

Last date (Application)	30.12.2021
Selection List by E- mail	31.02.2021
Duration	04.01.2022 to 08.01.2022

Objective Of the program :

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in Machine Learning in Signal Processing applications.
- The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and innovators among young faculty members, scientists, students, and researchers.

Outcomes of the program :

- Participants would gain a strong theoretical background in machine learning applications relevant to signal processing and communication engineering.
- They would acquire practical skills through hands-on sessions and quizzes.
- The program aimed to enhance the knowledge and skills of faculty members, research scholars, and students in algorithm development, dynamic system modeling, signal processing, image processing, machine learning, deep learning, transfer learning, Python integration, and hardware support using MATLAB and Simulink.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.

To inculcate professional and ethical values related to industry, society and environment.

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **RENEWABLE ENERGY TECHNOLOGIES & SUSTAINABILITY**, All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to Reduce dependency on fossil fuels and enhance energy security. Mitigate climate change by lowering greenhouse gas emissions. Encourage economic growth and job creation. Improve public health and environmental quality.

The main purposes of Renewable energy Technologies Generating energy that produces no greenhouse gas emissions from fossil fuels and reduces some types of air pollution. Diversifying energy supply and reducing dependence on imported fuels.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program is to develop in-depth knowledge for the following: Various renewable energy resources available at a location and assessments of its potential, using tools and techniques, Photosynthesis. Estimation of woody biomass, non woody biomass and wastes, ASTM standards.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and Increased to 120 in the year of 2022.. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives: The objective of leveraging Information and Communication Technology (ICT) in education for online and blended learning is to enhance the quality, accessibility, and flexibility of education delivery. Here are some key objectives.

- i. Enhancing Access to Education:
- ii. Facilitating Personalized Learning
- iii. Promoting Collaborative Learning
- iv. Increasing Engagement

Expected Outcomes: One Week Faculty Development Program on Program on “Use of ICT in Education for Online and Blended Learning” the expected output of using ICT in education for online and blended learning is a transformative shift towards more accessible, flexible, engaging, and effective learning experiences that empower learners to thrive in the digital.

Expected Outcomes:

One Week Faculty Development Program on Program on “Use of ICT in Education for Online and Blended Learning” the expected output of using ICT in education for online and blended learning is a transformative shift towards more accessible, flexible, engaging, and effective learning experiences that empower learners to thrive in the digital.

PRINCIPAL
Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P.)

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, CSM, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 14 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

The objective of the program is:-

1. To build consensus and facilitate knowledge sharing to achieve positive change in development initiatives.
2. The use of oral, written, digital, or visual forms of information delivery in work place content.

Outcomes of the program:-

1. Creates better relationships. Relationships built on the solid ground of good communication tend to be storage and can even help participants find opportunities for personal growth.
2. Helps handle conflicts better, increases self-awareness, builds empathy and trust.

And Potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and Increased to 120 in the year of 2022 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes. The department is working for the improvement of Industry – Institute Interaction in terms of academics & research and also for the development of infrastructure to match the needs of the industry.

VISION: Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION: To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objective: The objective of this one-day administrative training program is to develop participants' working proficiency in various essential skills required for administrative roles. Through interactive sessions and practical exercises, participants will enhance their competency in communication, organization, time management, problem-solving, and adaptability, equipping them with the necessary skills to excel in their administrative responsibilities.

Outcome: By the end of the training program, participants will have achieved the following outcomes: Enhanced communication, organizational, and time management skills, Improved problem-solving abilities and decision-making skills, Increased adaptability and flexibility to navigate changes and challenges in the workplace, Greater confidence and proficiency in performing administrative tasks effectively. A toolkit of practical skills and strategies to excel in administrative roles and contribute to organizational success.

The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

**About Department of Civil
Engineering**

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 sq.m .They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc..

Objective of this Program:

The main objective of this Program is to provide an opportunity for faculty, Research scholars and other Civil Engineering community to

i) Understand developments & challenges in Infrastructure related areas.

ii) Create an understanding on current scenario in Transportation, structural, water resources & Environmental engineering and challenges ahead.

PROGRAM REPORT

Name of the Program: A One Week Faculty Development Program on "ANLYSIS TO INTERNET OF THINGS"

Date: 01.02.2021 to 06.02.2021

Time: 10.00AM to 4.00PM.

Resource person details:

Name: Dr. Nagalla Sowjanya

Designation: Associate Professor

Department: EEE

Organization: Aditya Institute of Technology and Management

Email id: sowjanya6028@gmail.com

Mob num: +919494163969

Coordinator: A. Chandana, Assistant Professor,
Department of Electrical and Electronics Engineering

Number of Participants: 30

OBJECTIVE OF THE PROGRAM

The objective of the program is to bring awareness in the electrical professionals to understand themselves knowledge in innovation.

OUTCOME OF THE PROGRAM

All the participants in a one-week faculty development program on “ANLYSIS TO INTERNET OF THINGS” realize the importance.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON IOT & Embedded Applications

2nd to 6th February 2021

Organized by

Department of Electronics & Communication, SVCET Etcherla

About the FDP: The Faculty Development Programme (FDP) titled " IOT & Embedded Applications " aims to empower teachers and participants with the latest technology, skills, and insights in the realm of IoT and embedded systems. This FDP serves as a platform to unite researchers from academia and industry to delve into recent advancements and cutting-edge research areas within the Internet of Things, Embedded Systems, Intelligent Computing, Soft Computing, Optimization, Communication, and Hardware interfaces for smart sensors. Hands-on sessions during the FDP will delve into engineering principles and essential requirements for industry automation, offering practical experience and application. The program is designed to facilitate knowledge exchange and idea generation among experts and participants, with sessions dedicated to exploring technologies, techniques, and applications relevant to IoT. The primary objective of the FDP is to provide comprehensive understanding in Embedded Systems Design and its Applications for IoT. Given the rapid growth of IoT technologies and the increasing number of connected devices, the FDP will delve into detailed examinations of IoT systems, architecture, challenges, applications, protocols, and market demands. Additionally, programming and hands-on sessions will focus on utilizing microcontrollers, Arduino-Node MCU, and Raspberry-Pi for practical implementation

Major Course Contents:

1. Introduction to IoT and Embedded Systems
2. Recent Trends in IoT Technologies
3. Hands-on Session: Setting Up Development Environments
4. IoT System Architecture and Design Principles.
5. IoT Communication Protocols and Standards
1. Security Challenges in IoT Systems
2. Hands-on Session: Implementing IoT Protocols
3. IoT Applications in Industry and Everyday Life
4. Challenges and Solutions in IoT Implementation

Programming Basics for IoT Devices

7. Hands-on Project Development: Arduino and Node MCU

The programme will be conducted by the Resource person from AITAM Tekkali. Academicians in the concerned field are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course

Registration Fee Particulars:

Faculty and Research Scholars	Rs.1000/-
Industry Participants	Rs.2000/-

Participants need to pay the Registration Fee Online using the following details:-

BANK NAME: BANK OF INDIA
A/C.NO: 868625110000003
IFSC : BKID0005665

How to apply:

Participants are required to fill the registration form and Scanned it and send to the Convenor through mail.

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 30 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail.

Important Dates:

Last date (Application) **26.01.2021**
Selection List by E-mail **30.01.2021**
Duration **02.02.2021 to 06.02.2021**

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON IOT & Embedded Applications

2nd to 6th February 2021

Organized by

Department of Electronics & Communication, SVCET Etcherla

About SVCET:

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department of Electronics & Communication Engineering:

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps,

connectivity supporting a device density of 1 ms

million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks.

This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Department VISION

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department MISSION

- M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.
- M2. To inculcate professional and ethical values related to industry, society and environment.
- M3. To interact with industries, to meet their requirements through employable.

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Objective Of the Program :

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in **IOT & Embedded Applications**
- The primary objective of the "Exploring IoT Innovations" Faculty Development Programme is to equip participants, primarily educators, with comprehensive knowledge, skills, and insights into the rapidly evolving field of Internet of Things (IoT) and embedded systems. The program aims to facilitate a deep understanding of IoT fundamentals, recent trends, challenges, and applications, while also providing practical experience through hands-on sessions. By bringing together academia and industry experts, the program seeks to foster collaboration, idea exchange, and innovation in IoT research and implementation.

Outcomes:

1. Comprehensive Understanding: Participants gain deep insights into IoT fundamentals and recent trends.
2. Practical Skills: Hands-on sessions provide experience in IoT programming and implementation.
3. Problem-Solving Ability: Participants develop critical thinking skills for addressing IoT challenges.
4. Industry Alignment: Insights into IoT applications and market trends align teaching with industry demands.
5. Networking: Opportunities for collaboration and idea exchange foster professional connections.
6. Professional Development: Participants receive certificates, enhancing credibility in academia and industry.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that a One Week Faculty Development Program on “**INDUSTRIAL REVOLUTION 4.0**” has been successfully conducted from 16-11-2020 to 20-11-2020 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1.Mr.K.PREMA KUMAR,

Associate Professor

Sri Sivani College of Engineering, CHILAKAPALEM

2.Mr.G.MAHENDRANADH,

Asst.Professor

Mechanical Department, SVCET

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **INDUSTRIAL REVOLUTION 4.0**. All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is In essence, the Fourth Industrial Revolution is the trend towards automation and data exchange in manufacturing technologies and processes which include cyber-physical systems (CPS), IoT, industrial internet of things, cloud computing, cognitive computing, and artificial intelligence.

It enhance productivity, efficiency, and flexibility while enabling more intelligent decision-making and customization in manufacturing and supply chain operations.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program were enlightened regarding the latest trend and technologies prevailing in the Automation. This lead to increased production and efficiency, lower prices, more goods, improved wages, and migration from rural areas to urban areas.

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 12 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

ABOUT THE PROGRAM

Objective: The objective of this one-day administrative training program is to equip participants with the necessary skills and knowledge to effectively utilize Microsoft Excel and spreadsheet software for administrative tasks. Through hands-on training and practical exercises, participants will learn how to leverage Excel's features and functionalities to streamline data management, and create insightful spreadsheets that support informed decision-making and enhance productivity in their administrative roles.

Outcome: Proficiency in using Microsoft Excel and spreadsheet software for administrative tasks, Enhanced data management, and visualization skills, Ability to create professional-looking spreadsheets, charts, and graphs to communicate information effectively, Understanding of advanced Excel features and techniques for performing complex data analysis and automation, Increased productivity and efficiency in performing administrative tasks using Excel.

About the Institution

Sri Venkateswara College of Engineering & Technology, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. department offers post graduate program in (Master of Business Administration) specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approach training the students and placements.

Training programme on communication presentation skills, interview skills, resume writing etc., being conducted to enhance the career profile of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their full potential through the tasks they do.

CHIEF PATRON

Dr. B. Sri Rama Murthy,
Secretary, Vikas Educational Society

About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center.

They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “Recent Advances in Remote Sensing and GIS for Civil Engineering”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the various challenges in the Multi and Hyperspectral Imagery in the view of Civil Engineering Aspects.
- To learn the different challenges regarding the LiDAR and its Applications.
- To identify and learn the different Aspects of landscape evaluation and its applications.
- To acquire the knowledge regarding Landuse and Landcover and chemical features of the soil and its surface.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Opportunities and Challenges in next generation Semiconductor Devices

5th to 9th August 2019

Organized by

Electronics & Communication Department , SVCET Etcherla

About the FDP: The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" aims to provide participants with a comprehensive understanding of the emerging trends, opportunities, and challenges in the field of semiconductor devices. This program is designed for faculty members, researchers, and industry professionals who are interested in advancing their knowledge and contributing to the development of cutting-edge semiconductor technologies.

Major Course Contents:

1. Emerging Semiconductor Materials:
Wide-Bandgap Semiconductors: Silicon Carbide (SiC)
Gallium Nitride (GaN), Two-Dimensional (2D) Materials
: Graphene, Molybdenum Disulfide (MoS₂)
Organic Semiconductors and Perovskites:
Organic thin-film transistors, Hybrid organic-inorganic perovskites

2. Advanced Device Architectures:
FinFETs and Gate-All-Around (GAA) FETs:
Design principles, Performance benefits over traditional MOSFETs, Tunnel FETs (TFETs) and Negative Capacitance FETs (NCFETs):
Mechanisms and advantages for low-power applications,
Quantum Dots and Single-Electron Transistors: Quantum confinement effects
Applications in quantum computing and sensing

3. Fabrication and Processing Techniques:
Advanced Lithography: Extreme Ultraviolet (EUV) Lithography, Directed Self-Assembly (DSA)
Atomic Layer Deposition (ALD) and Molecular Beam Epitaxy (MBE): Techniques for precise thin-film deposition
Challenges in Nanoscale Fabrication:
Overcoming limitations in resolution and alignment.

4. Applications and Industry Trends:
Internet of Things (IoT) and Wearable Electronics:
Low-power devices
Flexible and stretchable electronics
Automotive and Power Electronics:
High-efficiency power devices
Applications in electric vehicles (EVs)
Artificial Intelligence (AI) and Machine Learning

Applications:

5. Challenges in Semiconductor Scaling:
Overcoming the Limits of Moore's Law:
Innovations in device architecture and materials
Heat Dissipation and Power Consumption:
Advanced cooling techniques
Low-power design strategies
Integrating Heterogeneous Materials and Devices:
Challenges and solutions for multi-material integration

The programme will be conducted by the Resource person from AITAM Tekkali, Academicians in the concerned field are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Registration Fee Particulars:

Faculty and Research Scholars	Rs.1000/-
Industry Participants	Rs.2000/-

Online Transfer Details

Participants need to pay the Registration Fee Online using the following details:-

BANK NAME: BANK OF INDIA
A/C.NO: 868625110000003
IFSC CODE: BKID0005665

How to apply:

Participants are required to fill the registration form and send the scanned copy to the Convenor through mail.

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 30 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail.

Important Dates:

Last date (Application)	01.08.2019
Selection List by E-mail	02.08.2019
Duration	05.08.2019 to 09.08.2019

The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

**About Department of Electronics
& Communication Engineering:**

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 million per square kilometer, and sub-millisecond

latencies essential for future gigabit communication networks. This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Department VISION

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department MISSION

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Objectives of the Program:

The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" aims to enhance participants' understanding of advanced semiconductor technologies, identify emerging research opportunities, and address key technical and practical challenges in the field. The program promotes industry-academia collaboration by facilitating interactions between academic researchers and industry professionals, providing hands-on training to develop practical skills in device fabrication, simulation, and characterization. It fosters a collaborative research environment, encourages sustainable practices in semiconductor technology, and prepares participants for future trends and innovations. Additionally, the FDP aims to improve pedagogical skills for teaching advanced semiconductor concepts and offers networking opportunities with leading experts to support ongoing learning and professional growth.

Outcome of the Program : The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" successfully achieved its objectives, providing participants with valuable knowledge, skills, and networking opportunities. The program was well-received, and participants are now better equipped to contribute to advancements in semiconductor technology. Future programs may incorporate more extended hands-on sessions and focus on specific emerging areas to further enhance the learning experience.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Date : 20-07-2019

PROGRAM REPORT

It is to inform that the 6 day Faculty Development Program on **“HVAC SYSTEMS DESIGN & OPTIMIZATION”** has been successfully conducted from 15-07-2019 to 19-07-2019 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1. Dr.J.BALA BHASKARA RAO,

Professor, Dept of MECH
Sri Sivani College Of Engineering, Chilakapalem.

2.Mr.G.HAREESH,

Asst.Professor, Dept of Mechanical
Sri Venkateswara College of Engineering & Technology, Etcherla

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **HVAC Systems Design & Optimization**, All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to create comfortable, safe, and energy-efficient indoor environments. HVAC engineers work on projects to select heating and cooling equipment, ductwork design, ventilation systems, and control systems.

The main purposes of a Heating, Ventilation and Air-Conditioning (HVAC) system are to help maintain good indoor air quality (IAQ) through adequate ventilation with filtration and provide thermal comfort.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program were enlightened regarding the latest trend and technologies prevailing of HVAC Systems & its Advantages. The design quality directly affects the energy-saving and carbon-reduction effects of HVAC systems.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

www.svcet.info

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives: The objective of deep learning is to develop algorithms and models that can learn and extract meaningful patterns and representations from complex data. These algorithms are designed to mimic the structure and function of the human brain's neural networks, hence the term "deep" learning, as it involves multiple layers of interconnected nodes.

Expected Outcomes: One Week Faculty Development Program on Program on "Deep Learning" The specific output of a deep learning model depends on the architecture of the model, the type of task being performed, and the nature of the data being processed. However, in general, deep learning models are capable of producing a wide range of outputs across various domains and applications industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

— **PRINCIPAL**
Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P)

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 11 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

This FDP will illuminate the Faculty in the concepts of calculus.

- To enlighten the learners in the concept of differential equations and multivariable calculus.
- To equip the students with standard concepts and tools at an intermediate to advanced level
- Mathematics to develop the confidence and ability among the students to handle various real world problems and their applications

Outcome:

- Solve the differential equations related to various engineering fields
- Familiarize with functions of several variables which is useful in optimization
- Apply double integration techniques in evaluating areas bounded by region
- Faculty will also learn important tools of calculus in higher dimensions. Students will become familiar with 2- dimensional and 3-dimensional coordinate systems

Sri Venkateswara College of Engineering and Technology, Dept. of Basic Science & Humanities has organized a One Week FDP on "Curriculum Design, Pedagogy and Teaching Methodology" for the faculty members from various institutions. The Resource Person from Vishnu Institute of Technology, Bhimavaram has highlighted following points.

Objectives:

The objective of the program is

1. To develop skill, knowledge and understanding level of the learners.
2. The methodology provides a framework and guidelines for researchers to clearly define research Questions, hypotheses, and objectives.
3. The specific, measurable expectations that indicate what learners should be able to know or do as they work toward a curriculum goal.

Outcome of the program:

The Faculty Development Program (FDP) on Curriculum Design, Pedagogy and Teaching Methodology is dynamic field that continually evolves to meet the needs of learners in an ever changing world. Through the program, participants will gain knowledge, comprehension, application, Analysis, creating and evaluation. The outcomes include enhanced curriculum development, contextualization of knowledge, praxis and technique, critical thinking and research and communication.

About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

.They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

Number of Faculty attended : 30

Venue: Seminar Hall, Block - A.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “*Water and Environmental Modelling Using MIKE, RS & GIS Applications*”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the River Basin Management and Planning using MIKE HYDRO Basin
- To learn about the Aerosol and Air Quality Studies using the Remote Sensing Data.
- To learn about the Fluvial Morphological Modeling using MIKE 21C.
- To learn about the Hydrological Modelling for Flood Extent using MIKE FLOOD.

Outcome of the Program:

- The faculty has learned about the River Basin Management and Planning using MIKE HYDRO Basin
- The faculty has acquired knowledge about the Aerosol and Air Quality Studies using the Remote Sensing Data.
- The faculty has learned about the Modelling of Fluvial Morphological Modelling using MIKE 21C.
- The faculty has learned about the Hydrological Modelling for Flood Extent using MIKE FLOOD.

About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in EEE, M-TECH (Master of Technology) with specializations Power Electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various Electrical related activities. Students are encouraged to do regular case studies enabling them to understand the Electrical related activities.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve skills.

Vision: To be globally recognized center of excellence in Electrical and Electronics of Engineering, pioneering innovations that shape the future of technology and society.

Mission: Our mission is to provide transformative education, conducting cutting-edge research, and faster innovation in Electrical and Electronics Engineering to address global challenges and improve quality of life.

About SVCET College

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About the ECE Department

The Electronics & Communication Engineering Department of SVCET was established in 2008. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design. The department has the state of art infrastructure with well equipped labs, software and computer center. The department has experienced and qualified faculty. The laboratory facilities are available in all subject areas of ECE. In addition to the regular curriculum, the department is offering add-on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body, industries and research projects.

Department Vision:

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department Vision:

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable graduates

About the FDP

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks. This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Contents of the FDP

- Designing and simulating digital communication systems
- Progress in error control strategies
- Designing and simulating antennas
- Reconfigurable RF/Microwave filters
- Physical layer perspectives on candidate technologies for 5G
- Designing and simulating non-orthogonal multiple access (NOMA)-based systems
- Radio-frequency integrated circuits (RFIC) for wireless communications
- Applying machine learning in communication systems
- An overview of wireless optical communication (WOC)

Who can attend

The faculty members, PG students, Research scholars, and working professionals from various technical institutes/industry can attend this FDP.

Important Dates

Last date for registration: September 20, 2018

Objectives of the Program:

- The Faculty Development Program (FDP) on "Advances in Communication Technology" aimed to enhance participants' understanding of digital communication systems, error control strategies, antenna design and simulation, and reconfigurable RF/Microwave filters. It explored candidate technologies for 5G, NOMA-based systems, RFIC for wireless communications, and the application of machine learning in communication systems. Additionally, the program provided an overview of wireless optical communication (WOC) and its role in next-generation communication, equipping participants with both theoretical knowledge and practical skills to advance the field of communication technology.

Outcome of the Program: The Faculty Development Program (FDP) on "Advances in Communication Technology" successfully enhanced participants' knowledge and skills in digital communication systems, error control strategies, antenna design, reconfigurable RF/Microwave filters, and 5G technologies. It provided practical insights into NOMA systems, RFIC development, and machine learning applications in communication, along with a comprehensive understanding of wireless optical communication (WOC) and its role in next-generation networks. The program fostered networking and collaboration, encouraged research and development, and empowered faculty with the latest technological advancements for improved teaching and research.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

ABOUT PROGRAM

Eminent Resourcepersond have expressed categorically the importance of **ROBOTICS & AUTOMATION IN MECHANICAL ENGINEERING**, All attendies were quite impressed and inspired by the seminar. They exhibit their curiosityand acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP that involves the conception, design, manufacture and operation of robots. The objective of the robotics field is to create intelligent machines that can assist humans in a variety of ways.

OUTCOMES OF THE PROGRAM

The main outcomes of the FDP Robotic process automation streamlines workflows, which makes organizations more profitable, flexible, and responsive. It also increases employee satisfaction, engagement, and productivity by removing mundane tasks from their workdays.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates.

ABOUT THE PROGRAM

Objectives: The objective of integrating AI and ML into biomedical engineering is to revolutionize healthcare delivery by improving diagnosis accuracy, treatment efficacy, patient outcomes, and operational efficiency, ultimately leading to better quality of care and advancements in medical science.

Expected Outcomes: One Week Faculty Development Program on “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering “the expected outputs of AI and ML applications in biomedical engineering include improved patient outcomes, more efficient healthcare delivery, accelerated medical discoveries, and a deeper understanding of biological processes, ultimately leading to advancements in medical science and improved quality of care.

Sri Venkateswara College of Engineering and Technology, Department of Computer Science and Engineering has organized a One Week F.D.P on “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering” for the faculty members from various institutions By the Resource Person from Sarada Institute of Science and Technology and Management, Ampolu, Srikakulam has highlighted following points.

Objectives:

This special issue “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering” tries to capture the scope of various applications of Machine Learning in the Bio Medical Engineering Field, with a special emphasis on the most representative machine learning Techniques.

SRI VENKATESWARA COLLEGE OF ENGINEERING & TECHNOLOGY

Accredited by NAAC with 'A' Grade

(Approved by AICTE, New Delhi; Affiliated to JNTUK, Kakinada; G.O.Ms.No. 101, Dt. 09-07-08)

NH-5, ETCHERLA-532410, SRIKAKULAM(Dist.), ANDHRA PRADESH

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Expected Outcomes:

One Week Faculty Development Program on “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering” the expected outputs of AI and ML applications in biomedical engineering include improved patient outcomes, more efficient healthcare delivery, accelerated medical discoveries, and a deeper understanding of biological processes, ultimately leading to advancements in medical science and improved quality of care.

PRINCIPAL

**Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P)**

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E,& C.S.E,PG Programs, M.B.A, & M.Tech like PE,CS,TE,VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 10 years. The department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

Chief Patron:

Dr. B. Srirama Murthy,
Secrtery
Vikas Educational Society.

A One Week FDP Program on “Treat Water and Save Environment: Recent Trends and Advancement in Treatment of Effluent Water

03-09-2018 to 07-09-2018

Organized by

**DEPARTMENT OF BASIC SCIENCES &
HUMANITIES**

**SRI VENKATESHWARA COLLEGE OF
ENGINEERING AND TECHNOLOGY**

(Under the Management of Vikas Educational
Society, Srikakulam)

(Approved by AICTE, New Delhi and Affiliated to
JNTUK, Kakinada,

VISION:

Emergence as a center of excellence and eminence to produce globally competent professionals adorned with social values

MISSION:

Impart a perfect blend of value-based, industry-relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

The objective of the program is:

Imparting knowledge about an overview on wastewater generation from oil industry, waste hierarchy, existing treatment processes and relevant regulations. To discuss physico-chemical and biological treatment processes for industrial effluent. To provide insight into advanced treatment methods to improve wastewater recycling potential. To discuss case studies and identification of gaps and future prospects

Outcome:

The following topics will be addressed during the Faculty development program-

- Industrial effluent treatment Physical and chemical properties.
- Aerobic and anaerobic treatment of water. Sewage water treatment. Sludge management. Toxicity in industrial wastewater. Recent advanced waste water treatment. Case studies from various like tanning industry, sugar industry, bio-refinery, metal processing industry. www.ies.ipsacademy.org
- Imparting knowledge about an overview on wastewater generation from oil industry, waste hierarchy, existing treatment processes and relevant regulations.
- To discuss physico-chemical and biological treatment processes for industrial effluent.
- To provide insight into advanced treatment methods to improve

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem solving skills will acquire knowledge of the design, implementation, and management of information systems of both hardware and software. You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study.

The department of CSE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes. The department is working for the improvement of Industry –Institute Interaction in terms of academics & research and also for the development of infrastructure to match the needs of the industry.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates

ABOUT THE PROGRAM

.Objective: The objective of this one-day administrative training program is to equip participants with essential administrative skills necessary for professional development. Through a combination of theoretical learning and practical exercises, attendees will enhance their understanding of key administrative functions and develop competencies to excel in their roles. The program aims to empower participants with the knowledge and tools needed to streamline processes, increase efficiency, and contribute effectively to organizational success.

Outcome: By the end of the training program, participants will have developed the following skills: Advanced formatting and document creation in Microsoft Word, Data management, analysis, and visualization in Microsoft Excel, Designing professional presentations in Microsoft PowerPoint, Participants will be equipped with the knowledge and skills to leverage Microsoft Office effectively to streamline administrative tasks, enhance productivity of their organizations.

The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B. Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

.They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “Recent Advances in Transportation Engineering (RATE)”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the various challenges during the fog for the traffic parameters in the Indian Road Traffic Conditions.
- To learn the different challenges for deciding the Capacity and Level of Service concepts for the Indian road Traffic Conditions.
- To identify and learn the different concepts of the traffic performance of the toll plazas with the help of a case study.
- To acquire the knowledge regarding Passenger Car Equivalency for Multilane Roundabouts Under Mixed Traffic Conditions with the help of a Case Study.

4

Outcome of the Program:

- The faculty has learned the various challenges to be faced during the fog for the traffic parameters in the Indian Road Traffic Conditions.
- The faculty has learned the different challenges to be faced for deciding the Capacity and Level of Service concepts for the Indian road Traffic Conditions.
- The faculty has learned the different concepts of the traffic performance of the toll plazas with the help of a case study.
- The faculty has acquired the knowledge regarding Passenger Car Equivalency for Multilane Roundabouts Under Mixed Traffic Conditions with the help of a Case Study.

Profile of SVCET

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

VISION:

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

MISSION:

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable graduates

**About Department of
Electronics & Communication**

The Electronics & communication Engineering Department of SVCET was established in 2008. The department is currently offering UG Program B.Tech in ECE and PG Program MTech in VLSI Design.

The Electronics & communication Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of ECE Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. are from R&B, RWS, Irrigation etc..

Objective of this Program

The main objective of this Program is to provide an opportunity for faculty, Research scholars and other ECE Engineering community. The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and

10-02-23	Curriculum Development and Updating in VLSI, DSP, and AI/ML	Mrs.V.Suryakala
11-02-23	Hands on Practice	Mrs.V.Suryakala

Registration and program management

Registration:

The participants to the course will be faculty members, research scholars, PG Scholars from technical institutions within 100km of SVCET College; Industry Bureaucrats/Technicians and staff of host institutions. There is no Registration fee for any participant. Only tea during sessions/working lunch will be provided to the participants. As per guidelines, the number of participants is limited to 50 only (first come first served basis).

Program management online

The program will be conducted Offline Mode only

Issuing of Certificate:

Certificate will be provided for the participants who attend sessions and submit feedback after program completion.

Objectives:

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in VLSI Design/Technology for DSP and AI/ML applications.
- The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and innovators among young faculty members, scientists, students, and researchers.

Outcome of the Program:

The Faculty Development Program (FDP) on VLSI Design for Signal Processing and AI/ML Applications aims to equip participants with advanced knowledge and practical skills in VLSI design tailored for signal processing and AI/ML tasks. Through the program, participants will gain expertise in applying cutting-edge techniques, algorithms, and tools, fostering a culture of research and innovation. The outcomes include enhanced curriculum development, industry collaboration, professional growth, and institutional impact, ultimately addressing industry needs and contributing to the advancement of knowledge and innovation in the field.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

ABOUT PROGRAM

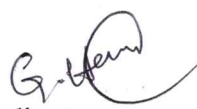

Eminent Resource persons have expressed categorically the importance of **FUELS FOR ENERGY**. All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to improve site characterization enhanced foundation design. Fuels primary purpose is to provide energy, and its calorific value is important. Fuels are essential commodities for every day activities, such as providing most of people's electric power and making transportation possible.

OUTCOMES OF THE PROGRAM

The main outcomes of the FDP is known as about practical outcomes of fuels for energy, Fuels are essential commodities for every day activities.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and increased to 120 in the year of 2022. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives:

The objectives related to machine learning (ML) and deep learning (DL) trends and challenges are multifaceted, encompassing both the advancement of the field and addressing the hurdles that arise with its growth.

Here are some key objectives

- i. Advancing AI Capabilities
- ii. Automation and Efficiency
- iii. Personalization and Recommendation Systems
- iv. Healthcare Innovations

Expected Outcomes: One One Week Faculty Development Program on “Machine Learning and Deep Learning- Trends and Challenges “Overall, navigating these trends and challenges in ML and DL requires collaboration across academia, industry, and government, as well as a commitment to ethical, responsible, and sustainable AI development.

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, CSM, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 15 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

ETCHERLA, Srikakulam-532410 (A.P)**

Potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and increased to 120 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes. The department is working for the improvement of Industry –Institute Interaction in terms of academics & research and also for the development of infrastructure to match the needs of the industry.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates

ABOUT THE PROGRAM

.Objective: The objective of this training program is to provide administrative staff with hands-on experience and technical knowledge in assembling computer hardware and performing routine maintenance tasks. By the end of the program, participants will be able to identify and install various computer components, understand their functions, and carry out basic troubleshooting and maintenance procedures. This training aims to improve the efficiency and self-reliance of administrative teams in managing and maintaining computer systems, reducing the need for external technical support, and minimizing computer downtime within their organization.

Outcomes: By the end of the training program, participants will have gained practical skills and confidence in assembling computer hardware and performing essential maintenance tasks. They will be able to independently identify, install, and troubleshoot various computer components, leading to improved operational efficiency and reduced dependency on external technical support.

About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Machine Learning Application In Signal Processing And Communication Engineering

4th to 8th January 2022

Organized by

Electronics & Communication Department , SVCET Etcherla

About the FDP: Machine Learning often plays a pivotal role in the evolution from data storage to decision-making systems reliant on vast databases, including signals sourced from sensor networks, internet services, or communication systems. This transition necessitates the development of both computational solutions and innovative models. Signal processing stands at the nexus of science and daily life. While the concept may initially appear dauntingly complex, many individuals, including scientists, have been engaging in it unwittingly for years. The essence of experimental science lies in acquiring, shaping, and transforming data, refining it to facilitate enhanced analysis and the extraction of valuable insights. Incorporating concepts of modeling and algorithms elevates these practices into a distinct scientific discipline. The objective of the workshop is to foster synergy between research on Machine Learning methodologies and their practical applications in Signal Processing, encompassing audio, image, and biomedical signal processing domains.

Major Course Contents:

1. Introduction to Machine Learning (ML)
2. Signal Processing Fundamentals and Applications
3. Audio Signal Processing
4. Supervised and Unsupervised Learning Techniques
5. Classifiers: Support Vector Machine, Decision Tree, and Random Forest
6. Dimensionality Reduction Methods: PCA, LDA, etc.
7. Neural Networks, Convolutional Neural Networks (CNN), and Deep Learning
8. Machine Learning for Signal Processing
9. Building Applications with Deep Architectures
10. Pattern Recognition and Image Processing

11. Machine Learning in Computer Vision Applications
12. Convolutional Neural Networks for Audio and Video Processing
13. Modelling and Optimization of Deep Architectures
14. Research Challenges and Case Studies in ML for Signal Processing
15. Case Studies in ML for Speech, Image, and Biomedical Applications
16. Hands-on Session: ML/DL Applications in Speech Processing, Image Processing, and Biomedical Applications using Python and MATLAB

The programme will be conducted by the Resource person from AITAM Tekkali, Academicians in the concerned field are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Registration Fee Particulars:

Participants need to pay the Registration Fee Online using the following details:-

Faculty and Research Scholars	Rs.1000/-
Industry Participants	Rs.2000/-

Online Transfer Details

BANK NAME: BANK OF INDIA
A/C.NO: 868625110000003
IFSC CODE: BKID0005665

How to apply:

Participants are required to fill the registration form and scanned it and send to the convenor through email.

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 30 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail.

Important Dates:

Last date (Application)	30.12.2021
Selection List by E- mail	31.02.2021
Duration	04.01.2022 to 08.01.2022

Objective Of the program :

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in Machine Learning in Signal Processing applications.
- The program will cover essential topics including algorithm design, architecture development, and design methodology. Its vision is to expand knowledge and technology in specialized areas of advanced electronics through research, training, discussions, and brainstorming sessions. It seeks to foster the development of future leaders and innovators among young faculty members, scientists, students, and researchers.

Outcomes of the program :

- Participants would gain a strong theoretical background in machine learning applications relevant to signal processing and communication engineering.
- They would acquire practical skills through hands-on sessions and quizzes.
- The program aimed to enhance the knowledge and skills of faculty members, research scholars, and students in algorithm development, dynamic system modeling, signal processing, image processing, machine learning, deep learning, transfer learning, Python integration, and hardware support using MATLAB and Simulink.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.

To inculcate professional and ethical values related to industry, society and environment.

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **RENEWABLE ENERGY TECHNOLOGIES & SUSTAINABILITY**, All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to Reduce dependency on fossil fuels and enhance energy security. Mitigate climate change by lowering greenhouse gas emissions. Encourage economic growth and job creation. Improve public health and environmental quality.

The main purposes of Renewable energy Technologies Generating energy that produces no greenhouse gas emissions from fossil fuels and reduces some types of air pollution. Diversifying energy supply and reducing dependence on imported fuels.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program is to develop in-depth knowledge for the following: Various renewable energy resources available at a location and assessments of its potential, using tools and techniques, Photosynthesis. Estimation of woody biomass, non woody biomass and wastes, ASTM standards.

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, CSM, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 14 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

Coordinator: M.Raja Mohan, Assistant Professor,

Department of Management Studies

Number of Participants: 32

OBJECTIVE OF THE PROGRAM

The objective of the program is to bring awareness in the emerging management professionals to understand themselves knowledge in labour laws.

OUTCOME OF THE PROGRAM

All the participants in a one week faculty development program on “**EMERGING LABOUR LAWS FOR INDUSTRIAL SECTOR**” realize the importance.

Profile of SVCET

Sri Venkateswara College of Engineering & Technology ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

**About Department of Civil
Engineering**

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 sq.m .They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc..

Objective of this Program:

The main objective of this Program is to provide an opportunity for faculty, Research scholars and other Civil Engineering community to

i) Understand developments & challenges in Infrastructure related areas.

ii) Create an understanding on current scenario in Transportation, structural, water resources & Environmental engineering and challenges ahead.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “Infrastructure challenges and future scenario in Civil Engineering: a global perspective” for the faculty members from various institutions. By the Resource Persons from NIT Warangal has highlighted following points.

Objectives:

- To learn the various challenges regarding the Road safety and health monitoring of the Structures.
- To learn the different future challenges regarding the Water Resources Engineering.
- To identify and learn the different Environmental Impact Assessment Challenges.
- To acquire the knowledge regarding Vulnerability and risk assessment of structures.

Outcome of the Program:

- The faculty has learned the various challenges for the road user regarding the Road safety and health monitoring.
- The faculty has learned the different challenges for the future regarding the Water Resource Problems.
- The faculty has learned how to identify the different Environmental Impact Assessment Challenges and overcome them.
- The faculty has acquired the knowledge regarding Vulnerability and risk assessment of structures.

About the Institution

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate programs in EEE (electrical and electronics of engineering) with specializations Power Electronics, Control Systems

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various electrical & electronics related activities. Students are encouraged to do regular case studies enabling them to understand the electrical related activities

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training program on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve skills.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON IOT & Embedded Applications

2nd to 6th February 2021

Organized by

Department of Electronics & Communication, SVCET Etcherla

About SVCET:

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department of Electronics & Communication Engineering:

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps,

connectivity supporting a device density of 1 ms

million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks.

This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Department VISION

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department MISSION

- M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.
- M2. To inculcate professional and ethical values related to industry, society and environment.

Objective Of the Program :

- This Faculty Development Program (FDP) aims to cater to young faculty members in engineering colleges and research scholars, acquainting them with the latest trends and challenges in **IOT & Embedded Applications**
- The primary objective of the "Exploring IoT Innovations" Faculty Development Programme is to equip participants, primarily educators, with comprehensive knowledge, skills, and insights into the rapidly evolving field of Internet of Things (IoT) and embedded systems. The program aims to facilitate a deep understanding of IoT fundamentals, recent trends, challenges, and applications, while also providing practical experience through hands-on sessions. By bringing together academia and industry experts, the program seeks to foster collaboration, idea exchange, and innovation in IoT research and implementation.

Outcomes:

1. Comprehensive Understanding: Participants gain deep insights into IoT fundamentals and recent trends.
2. Practical Skills: Hands-on sessions provide experience in IoT programming and implementation.
3. Problem-Solving Ability: Participants develop critical thinking skills for addressing IoT challenges.
4. Industry Alignment: Insights into IoT applications and market trends align teaching with industry demands.
5. Networking: Opportunities for collaboration and idea exchange foster professional connections.
6. Professional Development: Participants receive certificates, enhancing credibility in academia and industry.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

ABOUT PROGRAM

Eminent Resoursepersond have expressed categorically the importance of **INDUSTRIAL REVOLUTION 4.0**, All attendies were quite impressed and inspired by the seminar. They exhibit their curiosityand acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is In essence, the Fourth Industrial Revolution is the trend towards automation and data exchange in manufacturing technologies and processes which include cyber-physical systems (CPS), IoT, industrial internet of things, cloud computing, cognitive computing, and artificial intelligence.

It enhance productivity, efficiency, and flexibility while enabling more intelligent decision-making and customization in manufacturing and supply chain operations.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program were enlightened regarding the latest trend and technologies prevailing in the Automation. This lead to increased production and efficiency, lower prices, more goods, improved wages, and migration from rural areas to urban areas.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives: The objective of utilizing Amazon Web Services (AWS) in cloud computing is to leverage its vast array of services and infrastructure to build scalable, reliable, and cost-effective solutions. Here are some key objectives when using AWS for cloud computing.

Expected Outcomes: One Week Faculty Development Program on “Cloud Computing with AWS“ the expected output of using AWS for cloud computing is to achieve a scalable, reliable, secure, and cost-effective infrastructure that enables agility, innovation, and business growth.

Expected Outcomes:

One Week Faculty Development Program on “Cloud Computing with AWS” the expected output of using AWS for cloud computing is to achieve a scalable, reliable, secure, and cost-effective infrastructure that enables agility, innovation, and business growth.

PRINCIPAL
Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P)

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 12 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

Sri Venkateswara College of Engineering and Technology, Basic Science & Humanities Department has organized a One Week FDP on "In Applications of Mathematics in Engineering Studies" for the faculty members from various institutions. The Resource Person from Vishnu Institute of Technology and Management, Bhimavaram, has highlighted following points

Objectives:

The objective of the program is

1. To promote sustainable development that meets the needs of the present without compromising the ability of future
2. To protect and conserve wildlife and biodiversity and also to create more awareness of the multiple environmental problems

Outcomes of the Program:-

Prevent and control degradation of land, water, vegetation and air. Conserve and enhance, natural and man-made heritage. Raise awareness and understanding of the link between environment and development

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the- art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem solving skills will acquire knowledge of the design, implementation, and management of information systems of both hardware and software. You will, further, learn to use computing and information technology to help solve existing and

potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes. The department is working for the improvement of Industry –Institute Interaction in terms of academics & research and also for the development of infrastructure to match the needs of the industry.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates

ABOUT THE PROGRAM

Objective: The objective of this one-day administrative training program is to equip participants with the necessary skills and knowledge to effectively utilize Microsoft Excel and spreadsheet software for administrative tasks. Through hands-on training and practical exercises, participants will learn how to leverage Excel's features and functionalities to streamline data management, and create insightful spreadsheets that support informed decision-making and enhance productivity in their administrative roles.

Outcome: Proficiency in using Microsoft Excel and spreadsheet software for administrative tasks, Enhanced data management, and visualization skills, Ability to create professional-looking spreadsheets, charts, and graphs to communicate information effectively, Understanding of advanced Excel features and techniques for performing complex data analysis and automation, Increased productivity and efficiency in performing administrative tasks using Excel.

About the Institution

Sri Venkateswara College of Engineering & Technology, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in Srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. department offers post graduate program in (Master of Business Administration) specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approach training the students and placements.

Training programme on communication presentation skills, interview skills, resume writing etc., being conducted to enhance the career profile of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their full potential through the tasks they do.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

A ONE WEEK FACULTY DEVELOPMENT PROGRAMME (FDP) ON

Opportunities and Challenges in next generation Semiconductor Devices

5th to 9th August 2019

Organized by

Electronics & Communication Department , SVCET Etcherla

About the FDP: The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" aims to provide participants with a comprehensive understanding of the emerging trends, opportunities, and challenges in the field of semiconductor devices. This program is designed for faculty members, researchers, and industry professionals who are interested in advancing their knowledge and contributing to the development of cutting-edge semiconductor technologies.

Major Course Contents:

1. Emerging Semiconductor Materials:
Wide-Bandgap Semiconductors: Silicon Carbide (SiC)
Gallium Nitride (GaN), Two-Dimensional (2D) Materials
: Graphene, Molybdenum Disulfide (MoS₂)
Organic Semiconductors and Perovskites:
Organic thin-film transistors, Hybrid organic-inorganic perovskites

2. Advanced Device Architectures:
FinFETs and Gate-All-Around (GAA) FETs:
Design principles, Performance benefits over traditional MOSFETs, Tunnel FETs (TFETs) and Negative Capacitance FETs (NCFETs):
Mechanisms and advantages for low-power applications,
Quantum Dots and Single-Electron Transistors: Quantum confinement effects
Applications in quantum computing and sensing

3. Fabrication and Processing Techniques:
Advanced Lithography: Extreme Ultraviolet (EUV) Lithography, Directed Self-Assembly (DSA)
Atomic Layer Deposition (ALD) and Molecular Beam Epitaxy (MBE): Techniques for precise thin-film deposition
Challenges in Nanoscale Fabrication:
Overcoming limitations in resolution and alignment.

4. Applications and Industry Trends:
Internet of Things (IoT) and Wearable Electronics:
Low-power devices
Flexible and stretchable electronics
Automotive and Power Electronics:
High-efficiency power devices
Applications in electric vehicles (EVs)
Artificial Intelligence (AI) and Machine Learning

Applications:

5. Challenges in Semiconductor Scaling:
Overcoming the Limits of Moore's Law:
Innovations in device architecture and materials
Heat Dissipation and Power Consumption:
Advanced cooling techniques
Low-power design strategies
Integrating Heterogeneous Materials and Devices:
Challenges and solutions for multi-material integration

The programme will be conducted by the Resource person from AITAM Tekkali, Academicians in the concerned field are invited to deliver lectures in the programme. Speakers from industries are also expected to deliver as part of the course.

Registration Fee Particulars:

Faculty and Research Scholars	Rs.1000/-
Industry Participants	Rs.2000/-

Online Transfer Details

Participants need to pay the Registration Fee Online using the following details:-

BANK NAME: BANK OF INDIA
A/C.NO: 868625110000003
IFSC CODE: BKID0005665

How to apply:

Participants are required to fill the registration form and send the scanned copy to the Convenor through mail.

Selection Criteria:

Selection will be done based on first-come-first-serve basis to a maximum number of 30 (sixty). Additionally, 10 participants from industry are allowed to participate. The list of selected participants will be intimated through e-mail.

Important Dates:

Last date (Application)	01.08.2019
Selection List by E-mail	02.08.2019
Duration	05.08.2019 to 09.08.2019

ETCHERLA, Srikakulam-532430 (A.P.)

**A ONE WEEK FACULTY DEVELOPMENT PROGRAMME
(FDP) ON**

**Opportunities and Challenges in next generation
Semiconductor Devices**

5th to 9th August 2019

Organized by

Electronics & Communication Department , SVCET Etcherla

About SVCET:

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

**About Department of Electronics
& Communication Engineering:**

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 million per square kilometer, and sub-millisecond

latencies essential for future gigabit communication networks. This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Department VISION

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department MISSION

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Objectives of the Program:

The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" aims to enhance participants' understanding of advanced semiconductor technologies, identify emerging research opportunities, and address key technical and practical challenges in the field. The program promotes industry-academia collaboration by facilitating interactions between academic researchers and industry professionals, providing hands-on training to develop practical skills in device fabrication, simulation, and characterization. It fosters a collaborative research environment, encourages sustainable practices in semiconductor technology, and prepares participants for future trends and innovations. Additionally, the FDP aims to improve pedagogical skills for teaching advanced semiconductor concepts and offers networking opportunities with leading experts to support ongoing learning and professional growth.

Outcome of the Program : The FDP on "Opportunities and Challenges in Next-Generation Semiconductor Devices" successfully achieved its objectives, providing participants with valuable knowledge, skills, and networking opportunities. The program was well-received, and participants are now better equipped to contribute to advancements in semiconductor technology. Future programs may incorporate more extended hands-on sessions and focus on specific emerging areas to further enhance the learning experience.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that the 6 day Faculty Development Program on **“HVAC SYSTEMS DESIGN & OPTIMIZATION”** has been successfully conducted from 15-07-2019 to 19-07-2019 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1. Dr.J.BALA BHASKARA RAO,

Professor, Dept of MECH
Sri Sivani College Of Engineering, Chilakapalem.

2.Mr.G.HAREESH,

Asst.Professor, Dept of Mechanical
Sri Venkateswara College of Engineering & Technology, Etcherla

ABOUT PROGRAM

Eminent Resource persons have expressed categorically the importance of **HVAC Systems Design & Optimization**, All attendees were quite impressed and inspired by the seminar. They exhibit their curiosity and acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP is to create comfortable, safe, and energy-efficient indoor environments. HVAC engineers work on projects to select heating and cooling equipment, ductwork design, ventilation systems, and control systems.

The main purposes of a Heating, Ventilation and Air-Conditioning (HVAC) system are to help maintain good indoor air quality (IAQ) through adequate ventilation with filtration and provide thermal comfort.

OUTCOMES OF THE PROGRAM

Faculty members who participated in the program were enlightened regarding the latest trend and technologies prevailing of HVAC Systems & its Advantages. The design quality directly affects the energy-saving and carbon-reduction effects of HVAC systems.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society.. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

Objectives: The objective of deep learning is to develop algorithms and models that can learn and extract meaningful patterns and representations from complex data. These algorithms are designed to mimic the structure and function of the human brain's neural networks, hence the term "deep" learning, as it involves multiple layers of interconnected nodes.

Expected Outcomes: One Week Faculty Development Program on Program on "Deep Learning" The specific output of a deep learning model depends on the architecture of the model, the type of task being performed, and the nature of the data being processed. However, in general, deep learning models are capable of producing a wide range of outputs across various domains and applications industry, society and environment. To interact with industries, to meet their requirements through employable graduates.

Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P)

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 11 years. The department has always been on a progressive path, thanks to the experienced and dedicated

Faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emerge as a center excellence and eminence to produce globally competent professionals adorn with social values

MISSION:

Impart a perfect blend of value based, industry relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

This FDP will illuminate the Faculty in the concepts of calculus.

- To enlighten the learners in the concept of differential equations and multivariable calculus.
- To equip the students with standard concepts and tools at an intermediate to advanced level
- Mathematics to develop the confidence and ability among the students to handle various real world problems and their applications

Outcome:

- Solve the differential equations related to various engineering fields
- Familiarize with functions of several variables which is useful in optimization
- Apply double integration techniques in evaluating areas bounded by region
- Faculty will also learn important tools of calculus in higher dimensions. Students will become familiar with 2- dimensional and 3-dimensional coordinate systems

Sri Venkateswara College of Engineering and Technology, Dept. of Basic Science & Humanities has organized a One Week FDP on "Curriculum Design, Pedagogy and Teaching Methodology" for the faculty members from various institutions. The Resource Person from Vishnu Institute of Technology, Bhimavaram has highlighted following points.

Objectives:

The objective of the program is

1. To develop skill, knowledge and understanding level of the learners.
2. The methodology provides a framework and guidelines for researchers to clearly define research Questions, hypotheses, and objectives.
3. The specific, measurable expectations that indicate what learners should be able to know or do as they work toward a curriculum goal.

Outcome of the program:

The Faculty Development Program (FDP) on Curriculum Design, Pedagogy and Teaching Methodology is dynamic field that continually evolves to meet the needs of learners in an ever changing world. Through the program, participants will gain knowledge, comprehension, application, Analysis, creating and evaluation. The outcomes include enhanced curriculum development, contextualization of knowledge, praxis and technique, critical thinking and research and communication.

About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About Department

The Department was established in 2009. The department offers post graduate program in MBA (Master of Business Administration) with specializations HR, Finance, Marketing.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students. Everyday two hours are dedicated for seminars, team assignments, group discussions and various business economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty members supported by trainers. The department adopts the right blend of practical approaches in training the students and placements. Training programme on communication skills, presentation skills, interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION

1. To facilitate and promote excellent learning through knowledge dissemination and training.
2. To promote conducive ambience of learning, growth & professionalism in both students and employees.
3. To inculcate respect for all and to take care of everyone and allow them to manifest their highest potential through the tasks they do.

About the Institution

Sri Venkateswara College of Engineering & Technology, etcherla, Srikakulam (Dist.) was established in 2008 by Vikas Educational Society (1997) with an avowed objective of accelerating the growth of science and technology in srikakulam industrially backward district. SVCET was accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and eminent faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to “Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt.

About Department

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center .

.They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

Sri Venkateswara College of Engineering and Technology, Civil Department has organized a One Week F.D.P on “*Water and Environmental Modelling Using MIKE, RS & GIS Applications*”, for the faculty members from various institutions. By the Resource Persons the highlighted following points are as follows.

Objectives:

- To learn the River Basin Management and Planning using MIKE HYDRO Basin
- To learn about the Aerosol and Air Quality Studies using the Remote Sensing Data.
- To learn about the Fluvial Morphological Modeling using MIKE 21C.
- To learn about the Hydrological Modelling for Flood Extent using MIKE FLOOD.

Outcome of the Program:

- The faculty has learned about the River Basin Management and Planning using MIKE HYDRO Basin
- The faculty has acquired knowledge about the Aerosol and Air Quality Studies using the Remote Sensing Data.
- The faculty has learned about the Modelling of Fluvial Morphological Modelling using MIKE 21C.
- The faculty has learned about the Hydrological Modelling for Flood Extent using MIKE FLOOD.

About SVCET College

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

About the ECE Department

The Electronics & Communication Engineering Department of SVCET was established in 2008. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design. The department has the state of art infrastructure with well equipped labs, software and computer center. The department has experienced and qualified faculty. The laboratory facilities are available in all subject areas of ECE. In addition to the regular curriculum, the department is offering add-on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body, industries and research projects.

Department Vision:

Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

Department Vision:

M1. To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.

M2. To inculcate professional and ethical values related to industry, society and environment.

M3. To interact with industries, to meet their requirements through employable graduates

About the FDP

Advances in Communication Technology have been accelerating over the past few decades, driven by cutting-edge digital innovations. Modern communication systems have achieved three critical milestones: data rates exceeding 10 Gbps, connectivity supporting a device density of 1 million per square kilometer, and sub-millisecond latencies essential for future gigabit communication networks. This FDP course will explore the latest trends in key research areas, including RF front-end antennas, core concepts of wireless radio, and optical communications with a major emphasis on design and simulation perspectives.

Contents of the FDP

- Designing and simulating digital communication systems
- Progress in error control strategies
- Designing and simulating antennas
- Reconfigurable RF/Microwave filters
- Physical layer perspectives on candidate technologies for 5G
- Designing and simulating non-orthogonal multiple access (NOMA)-based systems
- Radio-frequency integrated circuits (RFIC) for wireless communications
- Applying machine learning in communication systems
- An overview of wireless optical communication (WOC)

Who can attend

The faculty members, PG students, Research scholars, and working professionals from various technical institutes/industry can attend this FDP.

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Objectives of the Program:

- The Faculty Development Program (FDP) on "Advances in Communication Technology" aimed to enhance participants' understanding of digital communication systems, error control strategies, antenna design and simulation, and reconfigurable RF/Microwave filters. It explored candidate technologies for 5G, NOMA-based systems, RFIC for wireless communications, and the application of machine learning in communication systems. Additionally, the program provided an overview of wireless optical communication (WOC) and its role in next-generation communication, equipping participants with both theoretical knowledge and practical skills to advance the field of communication technology.

Outcome of the Program: The Faculty Development Program (FDP) on "Advances in Communication Technology" successfully enhanced participants' knowledge and skills in digital communication systems, error control strategies, antenna design, reconfigurable RF/Microwave filters, and 5G technologies. It provided practical insights into NOMA systems, RFIC development, and machine learning applications in communication, along with a comprehensive understanding of wireless optical communication (WOC) and its role in next-generation networks. The program fostered networking and collaboration, encouraged research and development, and empowered faculty with the latest technological advancements for improved teaching and research.

ABOUT INSTITUTION

Sri Venkateswara College of Engineering & Technology was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls. Sri VENKATESWARA College of Engineering & Technology is committed to "impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values"

ABOUT DEPARTMENT

Mechanical Engineering Department was established in the year of 2009. The Department is offering four year UG program with intake of 120 & Two years PG program in the specialization of "Thermal Engineering" from the year 2014 with intake of 18. The strength of the department lies with dedicated and enthusiastic staff and most of them are well qualified from reputed institutions with different specialization and experienced. The faculty is focused towards inculcating technical creativity in the students along with theoretical as well as practical knowledge. The excellent facilities are available to achieve this aim. The department is having well equipped laboratories and provides excellent facilities for gaining practical knowledge.

VISION

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
To inculcate professional and ethical values related to industry, society and environment.

PROGRAM REPORT

It is to inform that a one week Faculty Development Program on “**ROBOTICS & AUTOMATION IN MECHANICAL ENGINEERING**” has been successfully conducted from 16-07-2018 to 20-07-2018 by Mechanical Engineering Department, Sri Venkateswara College of Engineering & Technology.

Resource persons :

1.Mr. M. VENKATA RAMANA

Professor, Mechanical Department
Aditya Institute of Technology and Management, Tekkali

2.Mr.P. SIVARAM

Asst.Professor, Mechanical Department
Sri Venkateswara College of Engineering & Technology

ABOUT PROGRAM

Eminent Resourcepersond have expressed categorically the importance of **ROBOTICS & AUTOMATION IN MECHANICAL ENGINEERING**, All attendies were quite impressed and inspired by the seminar. They exhibit their curiosityand acknowledge the seminar's significance. They consider the attending the seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main Objective of the FDP that involves the conception, design, manufacture and operation of robots. The objective of the robotics field is to create intelligent machines that can assist humans in a variety of ways.

OUTCOMES OF THE PROGRAM

The main outcomes of the FDP Robotic process automation streamlines workflows, which makes organizations more profitable, flexible, and responsive. It also increases employee satisfaction, engagement, and productivity by removing mundane tasks from their workdays.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, ETCHERLA was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state of the art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

Computer Science and Engineering is a profession that uses science, technology and problem-solving skills will acquire knowledge Of the design, implementation, and management of information systems of both hardware and Software.

You will, further, learn to use computing and information technology to help solve existing and potential real-world problems that we face in business, science, and society. It is a challenging but exciting and rewarding area to study. The department of CSE was established in 2008 with aim of importing high quality technical education in the area with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE. The department of CSE offers many courses that can be chosen as electives by the students of the other departments. The curriculum has been designed to take the college to levels on par with advanced institutes.

VISION

Emerge as a center of Pre-eminence in computer Science and Engineering Education, Research and Services.

MISSION

To produce graduates with scientific and technical knowledge and excellent computer science and engineering skills for professional practice, employment, advanced study and research. To introduce professional and ethical values related to industry, society and environment. To interact with industries, to meet their requirements through employable gradates.

ABOUT THE PROGRAM

Objectives: The objective of integrating AI and ML into biomedical engineering is to revolutionize healthcare delivery by improving diagnosis accuracy, treatment efficacy, patient outcomes, and operational efficiency, ultimately leading to better quality of care and advancements in medical science.

Expected Outcomes: One Week Faculty Development Program on “Artificial Intelligence and Machine Learning Applications in Bio Medical Engineering “the expected outputs of AI and ML applications in biomedical engineering include improved patient outcomes, more efficient healthcare delivery, accelerated medical discoveries, and a deeper understanding of biological processes, ultimately leading to advancements in medical science and improved quality of care.

**Sri Venkateswara College of Engineering & Technology
ETCHERLA, Srikakulam-532410 (A.P)**

About the Institution:

Sri Venkateswara College of Engineering and Technology (SVCET) is one of the colleges functioning under Vikas Educational Society. (1997) is a pioneer in the field of engineering education in Srikakulam district. It was established in the year 2008 under the affiliation of JNTU, Kakinada and approved by AICTE, New Delhi certified by ISO 9001:2015.

SVCET is situated in a spacious 11 acres campus adjacent to NH-16 at Etcherla village. The college is easily accessible to all the districts nearby Srikakulam.

SVCET offers B.Tech Programs in CE, E.E.E, MECH, E.C.E, & C.S.E, PG Programs, M.B.A, & M.Tech like PE, CS, TE, VLSI & CSE.

SVCET is completely Wi-Fi enabled and equipped with well-established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce market able products.

About the Department:

The Department of BS&H, Sri Venkateswara College of Engineering and technology was established in the year 2008. All through its parking history of 10 years. The department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

VISION:

Emergence as a center of excellence and eminence to produce globally competent professionals adorned with social values

MISSION:

Impart a perfect blend of value-based, industry-relevant, quality education towards employable graduates.

Create facility to become technically competent, communicative and ethically upright.

Objective :

The objective of the program is:

Imparting knowledge about an overview on wastewater generation from oil industry, waste hierarchy, existing treatment processes and relevant regulations. To discuss physico-chemical and biological treatment processes for industrial effluent. To provide insight into advanced treatment methods to improve wastewater recycling potential. To discuss case studies and identification of gaps and future prospects

Outcome:

The following topics will be addressed during the Faculty development program-

- Industrial effluent treatment Physical and chemical properties.
- Aerobic and anaerobic treatment of water. Sewage water treatment. Sludge management. Toxicity in industrial wastewater. Recent advanced waste water treatment. Case studies from various like tanning industry, sugar industry, bio-refinery, metal processing industry. www.ies.ipsacademy.org
- Imparting knowledge about an overview on wastewater generation from oil industry, waste hierarchy, existing treatment processes and relevant regulations.
- To discuss physico-chemical and biological treatment processes for industrial effluent.

ABOUT THE PROGRAM

Objective: The objective of this one-day administrative training program is to equip participants with essential administrative skills necessary for professional development. Through a combination of theoretical learning and practical exercises, attendees will enhance their understanding of key administrative functions and develop competencies to excel in their roles. The program aims to empower participants with the knowledge and tools needed to streamline processes, increase efficiency, and contribute effectively to organizational success.

Outcome: By the end of the training program, participants will have developed the following skills: Advanced formatting and document creation in Microsoft Word, Data management, analysis, and visualization in Microsoft Excel, Designing professional presentations in Microsoft PowerPoint, Participants will be equipped with the knowledge and skills to leverage Microsoft Office effectively to streamline administrative tasks, enhance productivity of their organizations.
