List of Add-on Programs/Certificate Programs

Academic Year: 2020-21

S.No	Name of the Program	Duration/Date	Number of Participants
1	A Two week certificate Program on "AUGMENTED REALITY & VIRTUAL REALITY"	15.03.2021 to 26.03.2021	84
2	A Two week certificate Program on "MACHINE LEARNING AND ITS APPLICATIONS"	07.12.2020 to 18.12.2020	51
3	A Two week certificate Program on "ELECTRIC VEHICLE (EV) TECHNOLOGY"	17.05.2021 to 19.05.2021	75
4	A Two week certificate Program on "BUILDING A CONNECTED FUTURE"	01.02.2021 to 12.02.2021	43
5	A Two week certificate Program on "NON-DESTRUCTIVE TESTING METHODS "	08.02.2021 to 19.02.2021	100
6	A Two week certificate Program on "INDUSTRIAL TRAINING ON GREEN ENERGY TECHNOLOGY "	16.11.2020 to 27.11.2020	100
7	A Two week certificate Program on "PRINCIPLES OF ANTENNA DESIGN AND WAVE PROPAGATION "	15/03/2021 to 26/03/2021	33
8	A Two week certificate Program on "DESIGN OF RF POWER AMPLIFIERS FOR WIRELESS TRANSMISSION"	02/11/2020 to 13/11/2020	33
9	A Two week certificate Program on "GIS AND APPLICATIONS FOR INFRASTRUCTURE DEVELOPMENT"	10.05.2021 to 22.05.2021	71
10	A Two week certificate Program on "REINFORCED EARTH AND APPLICATIONS "	08.02.2021 to 20.02.2021	52
11	A Two week certificate Program on "ANGEL SETUPS "	16.11.2020 to 27.11.2020	116

A Two week Certificate Program on AUGMENTED REALITY & VIRTUAL REALITY

15.03.2021 to 26.03.2021

Program Schedule

Academic Year:2020-21

Date: 05-03-2021

S.No	Date	Topics to be Covered	Name of The Resource Person
1	15-03-2021	Introduction :Introduction to Augmented-Virtual and Mixed Reality, Taxonomy, technology and features of augmented reality, difference between AR ,VR and MR,	Dr.Somaraju Mouli. M.Tech., Ph.D
2	16-03-2021	Challenges with AR, AR systems and functionality, Augmented reality methods, visualization techniques for augmented reality.	Dr.Somaraju Mouli. M.Tech., Ph.D
3	17-03-2021	VR systems : VR as a discipline, Basic features of VR systems, Architecture of VR systems,	Dr.B.Srinivas. M.Tech., Ph.D
4	18-03-2021	VR hardware : VR input hardware: tracking systems, motion capture systems, data gloves, VR output hardware: visual displays.	Dr.B.Srinivas. M.Tech., Ph.D
5	19-03-2021	Stereoscopic Vision & Haptic rendering :Fundamentals of the human visual system, Depth cues, Stereopsis, Retinal disparity, Haptic sense, Haptic devices,	Dr.SomarajuMouli. M.Tech., Ph.D
6	21-03-2021	VR software development : Challenges in VR software development, Master/slave and Client/server architectures,	Dr.SomarajuMouli. M.Tech., Ph.D
7	22-03-2021	3D interaction techniques: 3D Manipulation tasks, Manipulation Techniques and Input Devices, Interaction Techniques for 3D Manipulation.	Dr.B.Srinivas. M.Tech., Ph.D
8	23-03-2021	AR software development : AR software, Camera parameters and camera calibration, Marker-based augmented reality, AR Toolkit.	Dr.B.Srinivas. M.Tech., Ph.D
9	24-03-2021	Application of VR in Digital Entertainment: VR Technology in Film & TV Production. VR Technology in Physical Exercises and Games.	Dr.SomarajuMouli. M.Tech., Ph.D
10	25-03-2021	Demonstration of Digital Entertainment by VR and Feedback.	Dr.SomarajuMouli. M.Tech., Ph.D

ABOUT THE PROGRAM

Virtual reality (VR) and augmented reality (AR) have exciting potential in the future of gaming, marketing, e-commerce, education, and many other fields. Both technologies are known for their enriched experience that brings together a virtual world and the real one with enhanced, 3-D visuals. Although it can be easy to mix up the two, there are some significant differences.

Objective :

Augmented Reality (AR) is a groundbreaking technology which enhances the real world by virtual objects in order to create a new mixed reality environment. Typically Augmented Reality systems consist of an output device displaying the virtual information, a tracking system for determining position and orientation of the user, a computer processing the necessary data and arbitrary input devices for navigation and interaction.

Outcome:

An appropriate screening tool would help ensure that VR adverse effects are correctly identified and reported.

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CSE DEPARTMENT:

The Department of Computer Science and Engineering was established in 2008. The department offers four-year B.Tech Programs in CSE, CSE-CSM and two-year M.Tech programs. It has a rich tradition and well-qualified faculty, along with widely recognized laboratories. The department aims to provide a strong foundation in Computer Science and Engineering fundamentals, emphasizing mathematical and scientific principles. Additionally, the course focuses on developing skills in the application of design processes for innovative engineering solutions. The annual intake of students in CSE 150.

DEPARTMENT VISION:

Emerge as a center of Pre-eminence in Computer Science and Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent Computer Science and Engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates

HEAD OF THE DEPARTMENT:

Dr.P.Annan Naidu

Associate Professor

HoD, Dept. of CSE,
SVCET

ORGANIZING COMMITTEE:

M.Laxmana Rao, Asst.Prof.

A Two week Certificate Program on

MACHINE LEARNING AND ITS APPLICATIONS

07.12.2020 to 18.12.2020

Program Schedule

Academic Year: 2020-21

Date: 26.11.2020

S.No	Date	Topics to be Covered	Name of The Resource Person
1	07-12-2020	Introduction- Artificial Intelligence, Machine Learning, Deep learning, Types of Machine Learning Systems, Main Challenges of Machine Learning	Dr.K.Chinna Rao. M.Tech., Ph.D
2	08-12-2020	Statistical Learning: Introduction, Supervised and Unsupervised Learning, Training and Test Loss, Tradeoffs in Statistical Learning, Estimating Risk Statistics, Sampling distribution of an estimator, Empirical Risk Minimization.	Dr.K.Chinna Rao. M.Tech., Ph.D
3	09-12-2020	Supervised Learning(Regression/Classification): Basic Methods: Distance based Methods, Nearest Neighbours, Decision Trees, Naive Bayes	Dr.P.Annan Naidu. M.Tech., Ph.D
4	10-12-2020	Linear Models: Linear Regression, Logistic Regression, Generalized Linear Models, Support Vector Machines	Dr.P.Annan Naidu. M.Tech., Ph.D
5	11-12-2020	Binary Classification: Multiclass/Structured outputs, MNIST, Ranking	Dr.K.Chinna Rao. M.Tech., Ph.D
6	14-12-2020	Ensemble Learning and Random Forests: Introduction, Voting Classifiers, Bagging and Pasting, Random Forests, Boosting, Stacking	Dr.K.Chinna Rao. M.Tech., Ph.D
7	15-12-2020	Support Vector Machine: Linear SVM Classification, Nonlinear SVM Classification SVM Regression, Naïve Bayes Classifiers.	Dr.P.Annan Naidu. M.Tech., Ph.D
8	16-12-2020	Unsupervised Learning Techniques: Clustering, K-Means, Limits of K-Means, Using Clustering for Image Segmentation, Using Clustering for Preprocessing, Using Clustering for Semi-Supervised Learning, DBSCAN, Gaussian Mixtures.	Dr.P.Annan Naidu. M.Tech., Ph.D
9	17-12-2020	Dimensionality Reduction: The Curse of Dimensionality, Main Approaches for Dimensionality Reduction, PCA, Using Scikit-Learn, Randomized PCA, Kernel PCA.	Dr.K.Chinna Rao. M.Tech., Ph.D
10	18-12-2020	Neural Networks and Deep Learning: Introduction to Artificial Neural Networks with Keras, Implementing MLPs with Keras, Installing TensorFlow 2, Loading and Preprocessing Data with TensorFlow.	Dr.K.Chinna Rao. M.Tech., Ph.D

ABOUT THE PROGRAM

This Program explores the intersection of machine learning. Participants will delve into the latest advancements in ML technologies, examining their potential to revolutionize data driven insights and decision-making process. Through a combination of theoretical discussions, practical demonstrations ,and hands-on exercises, attendees will gain a comprehensive understanding of how AI technology.

Objective :

Appreciate the breadth & depth of ML applications and use cases in real-world scenarios. Import and wrangle data using Python libraries and divide them into training and test datasets. Data preprocessing techniques, univariate and Multivariate analysis, Missing values and outlier treatment etc

Outcome:

Python has a crucial role in machine learning because Python provides libraries like NumPy, Pandas, Scikit-learn, TensorFlow, and Keras. These libraries offer tools and functions essential for data manipulation, analysis, and building machine learning models. It is well-known for its readability and offers platform independence. These all things make it the perfect language of choice for Machine Learning.

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CSE DEPARTMENT:

The Department of Computer Science and Engineering was established in 2008. The department offers four-year B.Tech Programs in CSE and two-year M.Tech programs. It has a rich tradition and well-qualified faculty, along with widely recognized laboratories. The department aims to provide a strong foundation in Computer Science and Engineering fundamentals, emphasizing mathematical and scientific principles. Additionally, the course focuses on developing skills in the application of design processes for innovative engineering solutions. The annual intake of students in CSE is 60.

DEPARTMENT VISION:

Emerge as a center of Pre-eminence in Computer Science and Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent Computer Science and Engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates

The Department of Computer Science and Engineering organized a Two Week certificate program on "Machine Learning with Python" for II Year B.Tech CSE and AIML Students.

Machine learning (ML) is a field of study in artificial intelligence concerned with the development and study of statistical algorithms that can learn from data and generalize to unseen data, and thus perform tasks without explicit instructions. Recently, artificial neural networks have been able to surpass many previous approaches in performance. **Python** is dynamically typed and garbage-collected. It supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. It is often described as a "batteries included" language due to its comprehensive standard library. Totally 94 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Objective: The student will be able to

This Program can appreciate the breadth & depth of ML applications and use cases in real-world scenarios. Import and wrangle data using Python libraries and divide them into training and test datasets. Data preprocessing techniques, univariate and Multivariate analysis, Missing values and outlier treatment.

Outcomes: At the end of the course, student will be able to

Python has a crucial role in machine learning because Python provides libraries like NumPy, Pandas, Scikit-learn, Tensor Flow, and Keras. These libraries offer tools and functions essential for data manipulation, analysis, and building machine learning models. It is well-known for its readability and offers platform independence. These all things make it the perfect language of choice for Machine Learning.

Resource Person:

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource person and participants for making the program Successful.

CIRCULAR

It is hereby informed to all the final year B.Tech students that our college is conducting A Two week workshop on "Electric Vehicle (EV) Technology Workshop". From 13.12.2021 to 24.12.2021. All the students shall give their name to coordinator listed below on or before 13.12.2021. Hence, all the students are hereby informed to attend the classes without fail.

Venue: Class Room- PS&S lab.

Co-ordinator: Mr. K.Seetharamayya

ABOUT THE PROGRAM

A two-week workshop on "Electric Vehicle (EV) Technology Workshop" would provide a comprehensive understanding of the rapidly evolving field of electric vehicles. The program would cover a range of topics, from the basic principles of EV technology to advanced concepts and hands-on experience

Objective :

The objective of a two-week workshop on "Electric Vehicle (EV) Technology" could encompass a range of goals aimed at providing participants with comprehensive knowledge and skills in the field of electric vehicles. Provide participants with a thorough understanding of the principles and components of electric vehicles, including batteries, electric motors, power electronics, and charging infrastructure

Expected Outcome:

The two-week workshop on "Electric Vehicle (EV) Technology" aims to provide participants with a holistic understanding of electric vehicles, hands-on experience with EV technology, technical skills development, and insights into industry trends and career opportunities. By fostering a supportive learning environment and encouraging innovation, the workshop prepares participants to contribute effectively to the advancement of electric vehicle technology and the transition to sustainable transportation.

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUGV, Vizianagaram. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT

Electrical and Electronics Engineering is a profession that uses science, technology and problem solving skills to design construct and maintain products. It is a challenging but exciting and rewarding area to study. The department of EEE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE.

DEPARTMENT VISION

To be a globally recognized center of excellence in Electrical and Electronic Engineering, pioneering innovations that shape the future of technology and society

DEPARTMENT MISSION

Our mission is to provide transformative education, conduct cutting-edge research, and foster innovation in Electrical and Electronic Engineering to address global challenges and improve quality of life.

Department Of EEE, SVCET

Mobile number: 8499935804

e-Mail ID: vykunt555@gmail.com

Number of Students attended : 75

Venue: Class Room- PS&S lab.

Sri Venkateswara College of Engineering and Technology, Organized a Certificate Program on **A two week Deep Dive Workshop on "Advanced MATLAB Techniques"**. For the final year B.Tech Students By the Resource Person Dr.P.DEVENDRA & Mr.A.Apparao has highlighted following points.

Objectives:

- Inform participants about the benefits and potential of electric vehicles, including environmental impact, cost savings, and technological advancements.
- Provide in-depth knowledge about the mechanics and electronics of electric vehicles, including battery technology, electric motors, and power electronics.
- Teach practical skills for maintaining and repairing electric vehicles, including diagnostics, troubleshooting, and safety procedures.
- Offer practical, hands-on experience with electric vehicle systems, components, and tools.
- Train participants on the use of specialized software and diagnostic tools used in the EV industry.
- Facilitate networking opportunities between participants, industry experts, and businesses involved in the EV sector.

- Encourage collaboration on projects and initiatives that advance EV technology and adoption.

Learning Outcomes:

- Participants gain a thorough understanding of the basics of electric vehicles, including their components, operation, and types.
- Insight into different types of batteries used in EVs, their chemistry, lifecycle, charging mechanisms, and advancements.
- Detailed knowledge about electric powertrains, including motors, controllers, and energy management systems.
- Understanding the various types of charging stations, charging protocols, and infrastructure requirements.
- Completion of practical projects or case studies that apply the knowledge gained during the workshop.
- Potential certification upon completion of the workshop, enhancing participants' professional credentials.

This course was very useful to the students and their feedback is positive. The management and Principal of SVCET thanked the resource Person and participants for making the program successful.

ABOUT THE PROGRAM

The "Building a Connected Future" is a two-week IoT (Internet of Things) workshop designed to provide participants with comprehensive knowledge and hands-on experience in the field of IoT

Objective :

The objective of the two-week IoT workshop titled "Building a Connected Future" is to provide participants with a comprehensive understanding of the Internet of Things (IoT) and to equip them with the practical skills needed to develop and implement IoT solutions

Expected Outcome:

The outcome of a two-week IoT workshop titled "Building a Connected Future" can be multifaceted, impacting participants' knowledge, skills, and future opportunities. Participants gain a solid understanding of Internet of Things (IoT) concepts & acquire practical skills through hands-on activities and projects & Familiarity with IoT industry standards and best practices

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUGV, Vizianagaram. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT

Electrical and Electronics Engineering is a profession that uses science, technology and problem solving skills to design construct and maintain products. It is a challenging but exciting and rewarding area to study. The department of EEE was established in 2008 with aim of importing high quality technical education in the area of Electrical and Electronics Engineering with an intake of 60 and is affiliated to Jawaharlal Nehru Technological University, Kakinada approved by AICTE.

DEPARTMENT VISION

To be a globally recognized center of excellence in Electrical and Electronic Engineering, pioneering innovations that shape the future of technology and society

DEPARTMENT MISSION

Our mission is to provide transformative education, conduct cutting-edge research, and foster innovation in Electrical and Electronic Engineering to address global challenges and improve quality of life.

Sri Venkateswara College of Engineering and Technology, Organized a Certificate Program on **An Two Week IoT Workshop "Building a Connected Future "**. For the final year B.Tech Students By the Resource Persons **Dr. Allam jaya Prakash & Dr. A. Venkata Ramana** has highlighted following points.

Objectives:

- IoT aims to optimize processes and systems by enabling devices to communicate with each other, collect data, and make decisions autonomously.
- IoT facilitates automation by connecting devices and enabling them to perform tasks without human intervention. This can lead to reduced human error, increased productivity, and cost savings.
- IoT devices generate vast amounts of data, which can be collected, analyzed, and utilized to gain insights, make informed decisions, and improve operations.

- IoT devices generate vast amounts of data, which can be collected, analyzed, and utilized to gain insights, make informed decisions, and improve operations.
- IoT allows for real-time monitoring and remote control of devices and systems. This enables better management of resources, improved safety and security, and timely responses to events or anomalies.

Learning Outcomes:

- Participants gain a deeper understanding of IoT concepts, technologies, and applications through presentations, discussions, and hands-on activities conducted during the workshop.
- Participants acquire new skills related to IoT, such as sensor deployment, data collection and analysis, programming for IoT devices, and using IoT platforms and tools.
- Participants may develop prototypes or demonstrations of IoT solutions during the workshop, showcasing their ability to integrate hardware, software, and data to solve real-world problems.
- The workshop provides opportunities for participants to network with experts, industry professionals, and peers who share a common interest in IoT. This networking can lead to collaborations, partnerships, and future opportunities.
- Participants identify real-world problems or challenges that can be addressed using IoT technologies and brainstorm potential solutions or applications.

This course was very useful to the students and their feedback is positive. The management and Dr.V.SURESNDRA REDDY ,Principal of SVCET thanked the resource Person and participants for making the program successful.

ABOUT THE PROGRAM

A two-week certificate program on “ **NON-DESTRUCTIVE TESTING METHODS** ” typically aims to provide participants with a comprehensive understanding Explore NON-Destructive Testing Technologies. Provide students with in-depth knowledge and practical skills in various NDT methods.

Objective :

- To provide students with in-depth knowledge and practical skills in various NDT methods.
- To prepare students to understand, apply, and excel in non-destructive testing.
- To ensure the structural integrity and safety of engineering components in various industries

Expected Outcome:

upon completion of this course the student will be able to:

- Comprehend NDT Fundamentals.
- Identify and Apply NDT Techniques.
- Perform NDT Procedures.
- Interpret NDT Results.
- Apply NDT in Real-World Scenarios

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT:

Mechanical Engineering is a field that utilizes science, technology, and problem-solving skills to design, construct, and maintain products. It is a challenging yet fascinating and fulfilling area of study. Founded in 2008, the Department of Mechanical Engineering aims to deliver high-quality technical education in Mechanical Engineering with an initial intake of 120 students. Affiliated with Jawaharlal Nehru Technological University, Kakinada and approved by AICTE, the department offers various courses that students from other departments can choose as electives. The curriculum is designed to elevate the college to the standards of advanced institutions. The department is dedicated to enhancing Industry-Institute Interaction in academics and research, as well as developing infrastructure to meet industry requirements.

DEPARTMENT VISION:

Emergence as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates.

PROGRAM REPORT

- Name of the Program** : A Two Week Add-on Program on “Non- Destructive Testing Methods”
- Program Duration** : 08/02/2021 to 20/02/2021
- Resource Persons Details** : 1. Mr. G. Hareesh
Asst. Professor, Mechanical Department,
Sri Venkateswara College of Engineering and Technology,
Contact Number: 8464962205
2. Mr.S.Lakshmana Raju
Asst.Professor,Department of ME
Sri Sivani College of Engineering, Chilakapalem.
- Program Coordinator** : Mr. M. Ravi Kiran
Asst professor, Mechanical Department
Sri Venkateswara College of Engineering, Srikakulam
Contact number: 8919170640.
- Number of Students attended** : 100
- Program Venue** : Seminar hall, SVCET ,Block-A

Resource Person Picture :

Program Objectives:

- To provide students with in-depth knowledge and practical skills in various NDT methods.
- To prepare students to understand, apply, and excel in non-destructive testing.
- To ensure the structural integrity and safety of engineering components in various industries.

SRI VENKATESWARA COLLEGE OF ENGINEERING & TECHNOLOGY

Accredited by NAAC with 'A' Grade

(Approved by AICTE, New Delhi; Affiliated to JNTUK, Kakinada; G.O.Ms.No. 101, Dt. 09-07-08)

NH-5, ETCHERLA-532410, SRIKAKULAM (Dist.), ANDHRA PRADESH

Web : www.svcet.info, Email : principal_svcet@yahoo.com

Learning Outcomes:

Upon completion of this course the student will be able to:

- Comprehend NDT Fundamentals.
- Identify and Apply NDT Techniques.
- Perform NDT Procedures.
- Interpret NDT Results.
- Apply NDT in Real-World Scenarios.

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource person and participants for making the programme Successful.

A Two week certificate Program on INDUSTRIAL TRAINING ON GREEN ENERGY TECHNOLOGY

16/11/2020 to 27/11/2020

Program Schedule

Academic Year:2020-21

S.No	Date	Topics to be Covered	Name of The Resource Person
1	16/11/2020	Introduction to Green Energy and Sustainability	Dr.J.Bala Bhaskara Rao Professor Sri Sivani College of Engineering, Chilakapalem
2	17/11/2020	Solar Energy Technologies	Dr.J.Bala Bhaskara Rao Professor Sri Sivani College of Engineering, Chilakapalem
3	18/11/2020	Grid interactive PV System -Design	Dr.J.Bala Bhaskara Rao Professor Sri Sivani College of Engineering, Chilakapalem
4	19/11/2020	Standalone System-Design using PV system	Dr.J.Bala Bhaskara Rao Professor Sri Sivani College of Engineering,
5	20/11/2020	Design of PV system using solar pro tool	Dr.J.Bala Bhaskara Rao Professor Sri Sivani College of Engineering,
6	23/11/2020	Basics of bio mass technology	Mr.P. SIVARAM Asst.Professor, Department of ME SVCET, Etcherla
7	24/11/2020	Introduction to EV technology	Mr.P. SIVARAM Asst.Professor, Department of ME SVCET, Etcherla
8	25/11/2020	Design of power converts for EV applications	Mr.P. SIVARAM Asst.Professor, Department of ME SVCET, Etcherla
9	26/11/2020	Battery management system	Mr.P. SIVARAM Asst.Professor, Department of ME SVCET, Etcherla
10	27/11/2020	EV Charging technology	Mr.P. SIVARAM Asst.Professor, Department of ME SVCET, Etcherla

ABOUT THE PROGRAM

A two-week certificate program on “INDUSTRIAL TRAINING ON GREEN ENERGY TECHNOLOGY ” typically aims to provide participants with a comprehensive understanding Explore Renewable Energy Technologies. Learn how to conduct energy assessments and evaluate the feasibility of green energy solutions.

Objective :

To educate students about sustainable energy solutions.

To equip students with the knowledge and skills required to contribute to the green energy sector.

To foster a sustainable and eco-friendly future.

Expected Outcome:

upon completion of this course the student will be able to:

Understand Green Energy Concepts.

Explore Renewable Energy Technologies.

Learn how to conduct energy assessments and evaluate the feasibility of green energy solutions.

Understand the concept of sustainability in the context of green energy.

www.svcet.info

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUK, Kakinada . SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE DEPARTMENT:

Mechanical Engineering is a field that utilizes science, technology, and problem-solving skills to design, construct, and maintain products. It is a challenging yet fascinating and fulfilling area of study. Founded in 2008, the Department of Mechanical Engineering aims to deliver high-quality technical education in Mechanical Engineering with an initial intake of 120 students. Affiliated with Jawaharlal Nehru Technological University, Kakinada and approved by AICTE, the department offers various courses that students from other departments can choose as electives. The curriculum is designed to elevate the college to the standards of advanced institutions. The department is dedicated to enhancing Industry-Institute Interaction in academics and research, as well as developing infrastructure to meet industry requirements.

DEPARTMENT VISION:

Emerge as a Center of pre-eminence in Mechanical Engineering Education, Research and Services.

DEPARTMENT MISSION:

- To produce graduates with scientific and technical knowledge and excellent mechanical engineering skills for professional practice, employment, advanced study and research.
- To introduce professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable graduates.

Learning Outcomes:

Upon completion of this course the student will be able to:

- Understand Green Energy Concepts.
- Explore Renewable Energy Technologies.
- Learn how to conduct energy assessments and evaluate the feasibility of green energy solutions.
- Understand the concept of sustainability in the context of green energy.
- Explore strategies for promoting sustainable practices in energy production and consumption.

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource persons and participants for making the programme Successful.

CERTIFICATION OF PARTICIPATION

This certificate is proudly presented to

G. Narveen

Has participated in A Two week certificate Programme on “INDUSTRIAL TRAINING ON GREEN ENERGY TECHNOLOGY ”, Organised by Department of Mechanical Engineering, Sri Venkateswara College of Engineering and Technology, Etcherla, srikakulam.

From 16.11.2020 To 27.11.2020.

A Two week certificate program on

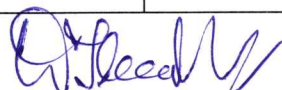

“PRINCIPLES OF ANTENNA DESIGN AND WAVE PROPAGATION”

15/03/2021 – 26/03/2021

Program Schedule

Academic Year: 2020-21

S.No	DATE	TOPIC	Name of The Resource Person
1	15-03-2021	Introduction to Antennas and Wave Propagation	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
2	16-03-2021	Antenna Radiation Mechanisms	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
3	17-03-2021	Antenna Arrays: Design and Analysis	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
4	18-03-2021	Antenna Feed Systems	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
5	19-03-2021	Antenna Impedance Matching Techniques	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
6	22-03-2021	Broadband Antenna Design Techniques	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
7	23-03-2021	Miniaturization Techniques in Antenna Design	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
8	24-03-2021	Antenna Arrays for Beamforming and Directional Communication	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
9	25-03-2021	Wave Propagation Models	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali
10	26-03-2021	Antenna Simulation and Modeling Tools	Dr.D.Yugandhar Professor Department of ECE AITAM,Tekkali

ABOUT THE PROGRAM

This is a comprehensive course that focuses on the fundamental principles and practices involved in designing antennas and understanding wave propagation. This course is crucial for professionals and students working in fields related to wireless communications, RF engineering, and electromagnetic theory.

Objective :

The course can provide students with a solid foundation in both image processing and FPGA implementation, along with practical experience in integrating MATLAB with FPGA for real-world image recognition applications

Expected Outcomes:

All the students who have participated in a two week workshop on **"PRINCIPLES OF ANTENNA DESIGN AND WAVE PROPAGATION"** have felt free and realized the importance of research and very much enthusiastic to get them absorbed in research after completion of their studies.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, Etcherla was established in 2008 by **Vikas Educational Society** with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

The Electronics & communication Engineering Department of SVCET was established in 2014. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design Engineering. The Electronics & communication Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 Sq.m. They are supported by experienced and qualified faculty

DEPARTMENT VISION

- Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

DEPARTMENT MISSION

- To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.
- To inculcate professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable.

The Department of Electronics and communication engineering organized a Two Week certificate program on “**PRINCIPLES OF ANTENNA DESIGN AND WAVE PROPAGATION**” for B.Tech (ECE) Students. Recently, miniature antennas have been improvised into several recognition trending techniques by using several principles which are discussed in this session. Totally 33 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes

Course Objectives: The student will be able to

- Antenna Types and Characteristics: Familiarize with various types of antennas, their characteristics, radiation patterns, and properties such as gain, directivity, bandwidth, and impedance.
- Wave Propagation Models: Learn about different wave propagation models, including free space, ground wave, sky wave, and line-of-sight propagation, and their implications on antenna design.
- Antenna Parameters and Specifications: Understand key antenna parameters such as VSWR (Voltage Standing Wave Ratio), radiation efficiency, polarization, and how these parameters influence antenna performance.
- Antenna Design Techniques: Gain knowledge of design techniques for different types of antennas, including wire antennas, patch antennas, horn antennas, and array antennas, considering factors such as frequency, bandwidth, and application requirements.
- Simulation and Optimization: Acquire skills in simulating antenna structures using software tools like HFSS, CST Microwave Studio, or similar, and optimizing antenna performance based on simulation results.

Course Outcomes (COs): At the end of the course, student will be able to

- Simulation Skills: Students will be able to use simulation software to model and analyze antenna structures, predict their performance characteristics, and optimize designs for specific requirements.
- Measurement Techniques: Students will gain proficiency in using antenna measurement equipment such as vector network analyzers and anechoic chambers to validate antenna designs and characterize their performance.
- Problem-Solving Skills: Students will develop problem-solving skills related to troubleshooting antenna designs, optimizing performance, and addressing practical challenges encountered during implementation.
- Critical Analysis: Students will be able to critically analyze the performance of antennas in terms of gain, efficiency, bandwidth, and other key parameters, and propose design improvements based on theoretical knowledge and practical considerations.
- Industry Application: Students will be equipped to apply their knowledge of antenna design and wave propagation principles to real-world applications in industries such as telecommunications, aerospace, satellite communication, and radar systems.

ABOUT THE PROGRAM

Specialized program or involved in designing radio frequency (RF) power amplifiers, course that focuses on the principles and practices which are critical components in wireless transmission systems. Designed to equip participants with the knowledge and skills necessary to design, analyze, and implement RF power amplifiers, which are essential components in wireless communication systems.

Objective :

The course can provide students with a comprehensive understanding of recent trends and advancements in wireless communications, along with practical skills in using MATLAB for analysis, simulation, and design in this domain

Expected Outcomes:

All the students who have participated in a two week workshop **“DESIGN OF RF POWERAMPLIFIERS FOR WIRELESS TRANSMISSION”** have felt free and realized the importance of research and very much enthusiastic to get them absorbed in research after completion of their studies.

ABOUT THE INSTITUTION

Sri Venkateswara College of Engineering & Technology, Etcherla was established in 2008 by **Vikas Educational Society** with an avowed Objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow in their own interest and also in interest of the society at large. We have extensive record in the field of education. The institution is endowed with highly qualified and seasoned faculty on its rolls.

ABOUT THE DEPARTMENT

The Electronics & communication Engineering Department of SVCET was established in 2014. The department is currently offering UG Program B.Tech in ECE and PG Program M.Tech in VLSI Design Engineering. The Electronics & communication Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500 Sq.m. They are supported by experienced and qualified faculty

DEPARTMENT VISION

- Emerge as a Center of pre-eminence in Electronics and Communication Engineering education, research and services.

DEPARTMENT MISSION

- To produce graduates with scientific and technical knowledge and excellent electronics and communication engineering skills for professional practice, employment, advanced study and research.
- To inculcate professional and ethical values related to industry, society and environment.
- To interact with industries, to meet their requirements through employable.

The Department of Electronics and communication engineering organized a Two Week certificate program on “**DESIGN OF RF POWER AMPLIFIERS FOR WIRELESS TRANSMISSION**” for B.Tech (ECE) Students. Recently, power amplifiers are broadly used and have been improvised into several trending applications which are discussed in this session. Totally 33 students will be well-prepared to apply their knowledge and skills in wireless implementation to various engineering domains and industries where signal processing plays a crucial role also understand the following objectives and learning outcomes.

Course Objectives: The student will be able to

Understanding RF Power Amplifiers: Gain a comprehensive understanding of the principles, operation, and types of RF power amplifiers used in wireless communication systems.

- Design Fundamentals: Acquire knowledge of fundamental concepts related to RF power amplifier design, including impedance matching, linearity, efficiency, and stability.
- Amplifier Architecture: Explore various RF power amplifier architectures such as Class A, B, AB, C, D, E, and F, and their respective advantages and limitations.
- Modeling and Simulation: Learn techniques for modeling and simulating RF power amplifiers using software tools like ADS, Microwave Office, or similar tools.
- Measurement Techniques: Understand measurement techniques for characterizing RF power amplifiers, including S-parameters, power gain, efficiency, and linearity.
- Power Amplifier Design Strategies: Gain insights into different design strategies for optimizing RF power amplifiers in terms of efficiency, linearity, and output power

Course Outcomes (COs): At the end of the course, student will be able to

- Design Proficiency: Students will be proficient in designing RF power amplifiers for wireless transmission systems, considering factors such as frequency range, output power, and efficiency requirements.
- Simulation Skills: Students will be able to simulate RF power amplifier circuits using software tools, analyze simulation results, and optimize amplifier performance accordingly.
- Measurement Techniques: Students will be capable of using RF test equipment to measure and characterize RF power amplifiers, including gain, efficiency, linearity, and other key parameters.
- Problem-Solving Skills: Students will develop problem-solving skills related to troubleshooting and optimizing RF power amplifier designs to meet specific performance criteria.
- Critical Analysis: Students will be able to critically analyze the performance of RF power amplifiers and propose design improvements based on theoretical knowledge and practical considerations.

ABOUT SVCET:

Established in the year 2008 by Vikas Educational Society-the corporate social responsibility arm of SVCET Group and affiliated to JNTUGV, Vizianagaram. SVCET offers high quality technical education for aspiring Engineers. College is located in Etcherla, Srikakulam district of Andhra Pradesh. SVCET provides its learning community state-of-the-art facilities, infrastructure, and a competent faculty. The Institute encourages collaborative learning between industry and academia as a means of reinforcing its emphasis on a well-rounded education that makes SVCET a one of the preferred institutes among engineering colleges in India.

ABOUT THE CIVIL DEPARTMENT:

The Civil Engineering Department of SVCET was established in 2014. The department is currently offering B.Tech in Civil Engineering.

The Civil Engineering Department has the state of art infrastructure with well equipped labs, software and computer center spread in an area of 500sq.m. They are supported by experienced and qualified faculty. The laboratory facilities are available in all subject areas of Civil Engineering. In addition to the regular curriculum, the department is offering add on courses on communication skills, arithmetical reasoning, programming languages etc. for enriching the competitive knowledge of the students and preparing them for better employability. Students are also engaged in the projects works which demands the needs of social body in the surrounding situations as well as in the research projects. The department is also offering consultancy services in the areas of Material testing, Mix design and Analysis of structures. The clients are from R&B, RWS, Irrigation etc.

VISION:

Emerge as a Center of pre-eminence in Engineering, education, research and services.

MISSION:

M1) To produce graduates with scientific and technical knowledge and excellent engineering skills for professional practice, employment, advanced study and research.

M2) To inculcate professional and ethical values related to industry, society and environment.

M3) To interact with industries, to meet their requirements through employable graduates.

ABOUT THE PROGRAM

The design and drawing of composite bridges involve the use of composite materials, typically steel and concrete, to create efficient and durable bridge structures. Composite bridges offer several advantages over traditional bridge. **Material Selection:** Composite bridges.

Objective :

The objective of the design and drawing of composite bridges is to create safe, efficient, and durable bridge structures that effectively their intended purpose while minimizing environmental impact and maximizing cost-effectiveness. Here are the primary objectives

Outcome:

The outcomes of the design and drawing of composite bridges encompass several key aspects, each contributing to the successful realization of safe, efficient, and durable bridge structures. Here are the outcomes. Safe and Reliable **Structures:** The foremost outcome is the creation of bridges that are safe and reliable for all users, including vehicles, pedestrians, and cyclist.

ORGANIZING COMMITTEE:

Objective : The objectives of using GIS (Geographic Information Systems) and its applications for infrastructure development .. Here are some key objectives. **Spatial Analysis for Site Selection:** Utilize GIS to analyse spatial data such as terrain, land use, environmental factors.

Outcome: The outcomes of utilizing GIS and its applications for infrastructure development are diverse and impactful, spanning various stages of project lifecycle and contributing to improved efficiency, effectiveness, and sustainability. Here are some key outcomes, **Optimized Site Selection:**

Resource Person:

This certificate course was very useful to students and their feedback is positive. The Management and Principal of Sri Venkateswara College of Engineering and Technology, thanked the resource person and participants for making the program successful.

Profile of SVCET

Sri Venkateswara College of Engineering & Technology, Etcherla, Srikakulam (Dist.) was established in 2008 by VIKAS EDUCATIONAL SOCIETY (1997) with an avowed objective of accelerating the growth of science and technology in this industrially backward Srikakulam district. SVCET is accredited by NAAC in 2016. The Institution aims at providing state-of-the-art technology to the student community to broaden their horizon for a better and prospective tomorrow endowed with highly qualified and seasoned faculty on its rolls. Sri Venkateswara College of Engineering & Technology is committed to "Impart quality education to the youth enable them the right attitude, professional competency and inculcate ethical values. The Institute is a recipient of Best Green Campus award for 2017 by Govt. of A.P. in 2018.

VISION:

To enhance the managerial abilities of the students with holistic approach for global employment and entrepreneurship.

MISSION:

- M1) To facilitate and promote excellent learning through knowledge dissemination and training.
- M2) To promote conducive ambience of learning, growth & professionalism in both students and employees.
- M3) To inculcate respect for all and to take care of every one and allow them to manifest their highest potential through the tasks they do.

**About Department of
MBA**

The MBA Department of SVCET was established in 2009. The department offers post graduate programme in MBA (Master of Business Administration) with specializations HR, Finance, Marketing under affiliated to JNTU, Kakinada.

It has an exclusive departmental library with reference books, in order to develop the innate skills of students everyday two hours are dedicated for seminars, team assignments, group discussions and various business and economic related activities. Students are encouraged to do regular case studies enabling them to understand the intricacies of management.

The department has well qualified and experienced faculty supported by trainers. The department adopts the right blend of practical approaches in training the students and placements.

Training programme on communication skills, presentation skills and interview skills, resume writing etc., being conducted to enhance the career prospects of students. A series of personality development programs are being conducted to encourage students to improve managerial skills.

Objective of this Program

The main objective of this Program is to provide an opportunity for students regarding as follows:

- To know the prime purpose is to offer strategic inputs and accelerate the ultimate growth.
- To study the role is to be active shareholders in the annual general company meetings and events.
- To study how returns, they receive considerable equity ownership.
